Enhance Knowledge with 1Z0-750 Sample Questions:

Question: 1

As a project manager, you use spreadsheets to keep track of multiple projects. As you took responsibility of more projects, you became tired of managing them in spreadsheets.

You have collated all of your project data in one single spreadsheet. You also want to maintain the data in an Oracle Database table by using an Oracle APEX application.

Which two actions can you take?

(Choose two.)

- a) Define a Data Loading page in the Create Application Wizard.
- b) Use SQL Workshop > Utilities > Data Workshop to load the data into a new table, and then use the Create Application Wizard to create an application on the new table.
- c) Create an application by using the Create Application Wizard, and then add a table for the spreadsheet data.
- d) Use the Create Application Wizard and select "From a Spreadsheet."
- e) Create a new table by using SQL Workshop > Object Browser > Create Table, and then use the Create Application Wizard to create an application based on the new table.

Answer: b, d

Question: 2

What is the least error-prone way to split a long list into two lists?

- a) Create an empty second list, copy selected list items from the first list to the second list, and then remove the copied list items from the first list.
- b) Create two new lists, copy list items from the initial list to the first list, copy the remaining list items from the initial list to the second list, and then delete the initial list.
- c) Create an empty second list, manually re-create the needed list entries, and then remove the matching list entries from the first list.
- d) Copy the entire list, grid edit the copied list and remove entries that are not needed, and then grid edit the first list and remove the entries that are now in the second list.

Answer: d

Question: 3

Thomas has created an app and wants to add a help icon to the navigation bar. He has added the list entry with the Image/Class fa-question circle-o and List Entry Label "Help." When he runs the app, the question mark is displayed together with the word Help.

How can Thomas display just the icon and not the word Help in the navigation bar?

- a) Set List Entry Label to "Null."
- b) Set List Entry Template to "Icon."
- c) Set User Defined Attribute 02 to icon-only
- d) Set List Attributes to style="display:none;"

Answer: c

Question: 4

Jenny has a form page based on ORDER_ITEMS. For certain product types, she needs to redirect to a modal dialog page to ask for additional information, before validating or processing the record on page submission.

Which processing point should Jenny select for the branch?

- a) Before Computations
- b) After Processing
- c) After Submit
- d) Processing

Answer: c

Question: 5

Betty has created a zip file, app100_files.zip, to include all of her static application files that she references in her application. The files are divided into different subdirectories for JavaScript and CSS.

How can Betty upload the static files, so they can be referenced, and maintain the subdirectory structure?

- a) Unzip app100_files.zip, and upload each directory individually.
- b) Upload app100_files.zip to the file server and unzip the file. In User Interface Properties, edit the Theme, and set JavaScript File URLs.
- c) In Shared Components, create the required subdirectories. Unzip app100_files.zip, and upload each file into their subdirectories.
- d) Upload app100_files.zip, and set Unzip File to Yes.

Answer: d

Question: 6

Which two are true about using the Create Page Wizard to create a report with "Report with Form on Table"?

(Choose two.)

- a) The wizard builds two pages using an interactive grid page and a form page.
- b) The report and form must both be based on the same table or view.
- c) The wizard builds two pages, and interactive report page and a form page.
- d) The second page allows users to select the previous and next records.
- e) The first page allows users to update records.

Answer: b, c

Question: 7

Which is true about a workspace in Oracle APEX?

- a) It can be associated only with one schema.
- b) It can be associated with the multiple schemas in the same database.
- c) It can be associated with multiple schemas from different databases.
- d) It is not associated with any schemas.

Answer: b

Question: 8

Susan is building a new bug tracking application by using the Create Application Wizard. She wants to change the icon on the login screen to the "app-icon-bug" image.

How can Susan change the icon?

- a) Click Appearance, and then click Choose New Icon
- b) Click User Interface Defaults, and then select Edit Defaults
- c) Edit the home page and click Select Icon
- d) Click Advanced Settings, and then use the select list for Icon

Answer: a

Question: 9

When testing the Data Load Wizard pages, you realize that you forgot to add a transformation rule. What should you do to add the transformation rule?

- a) Update Data Load Definition.
- b) Delete Data Load Definition and re-create it manually.
- c) Use the Create Page Wizard to re-create the pages.
- d) Update the existing generated pages.

Answer: a

Question: 10

You can control when an authorization scheme is validated by using the Evaluation Point. Select three valid Evaluation Points.

- a) once per session
- b) once per region
- c) once per page view
- d) once per day
- e) always (no caching)
- f) once per user

Answer: a, c, e

What Study Guide Works Best in Acing the Oracle 1Z0-750 Application Express 18 Developing Web Applications Certification?

The 1Z0-750 study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the Application Express 18 Developing Web Applications exam, getting in full touch of the [syllabus](#) is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

Make Your Schedule:

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

Get Expert Advice from the Training:

Do not forget to join the Oracle 1Z0-750 training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

Get Access to the PDF Sample Questions:

If your study material is in a [PDF format](#) or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

Avoid Dumps and Utilize the Oracle 1Z0-750 Practice Test:

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the exam structure and time management during the exam preparation can perform well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self-assessment method. Therefore, 1Z0-750 practice tests always stand out to be the better choice than dumps PDF.

Avail the Proven 1Z0-750 Practice Test for Success!!!
