Get an Overview of the 500-240 CMBFE Certification:

Who should take the **500-240 exam**? This is the first question that comes to a candidate's mind when preparing for the Service Provider Mobile Backhaul for Field Engineers certification. The 500-240 certification is suitable for candidates who are keen to earn knowledge on the Channel Partner and Other and grab their Cisco Partner Field Engineer. When it is about starting the preparation, most candidates get confused regarding the study materials and study approach. But 500-240 CMBFE study guide PDF is here to solve the problem. 500-240 PDF combines some effective sample questions and offers valuable tips to pass the exam with ease.

Why Should You Earn the Cisco 500-240 Certification?

There are several reasons why one should grab the 500-240 certification.

- The Service Provider Mobile Backhaul for Field Engineers certification proves to be one of the most recognized certifications.
- The certification badge proves the knowledge of the candidate regarding subject matters and makes his resume presentable to potential candidates.
- Thus earning the **Cisco Partner Field Engineer** is a powerful qualification for a prosperous career.

What Is the Cisco 500-240 Service Provider Mobile Backhaul for Field Engineers Certification Exam Structure?

Section	Weight
Mobile Backhaul Legacy Interoperability	20%
MBH End-to-End Communication Basics, Implementing Unified MPLS for IP MBH Communication - Clock and Timing	20%

Section	Weight
Examining MBH Architecture and Transport Architectures, Migration Strategies for MBH, Foundational Principles of Radio Frequency	25%
Implementing Traffic Management	5%
Configuring Core Layer Devices, Aggregation Layer Devices, Cisco RAN Access Layer Devices, Advanced Features	20%
Cisco UMMT Service and Control Architectures	5%
Cisco ASR Devices for MBH	5%

Enhance Knowledge with 500-240 Sample Questions:

Question: 1

In an Unified MPLS for IP MBH context, what are pre-aggregation nodes?

a) are route refilector clients of the Core Route refilector
b) are route refilector clients of the core node ASBR
c) are route refilector clients of the core node ABR
d) are all route refilector

Answer: b

Question: 2

What is frequency, phase, and time of day synchronization in mobile architecture?

a) was only required for legacy
b) is not important
c) is natively supported in IPv6
d) is a key requirement for the radio equipment

Answer: d

Question: 3

How does traditional mobile networks scale?

a) non-exponentially
b) exponentially
c) linearly
d) nonlinearly

Answer: c

Question: 4

Which three clock types can an ASR920 router be configured as? (Choose three.)

a) Clock
b) Boundary clock
c) Transparent clock
d) Ordinary, Regular
e) Regular clock
f) Ordinary clock

Answer: b, c, f

Question: 5

What are three purposes of partitioning the backhaul network into independent IGP domains?

(Choose three.)

a) to not enhance stability
b) to reduce the size of the routing and forwarding tables on individual routers
c) to ensure that reachability is not possible between domains
d) to not ensure stability
e) faster convergence
f) to enhance stability

Answer: b, e, f

Question: 6

High availability at the transport network layer is provided through the combination of what three technologies?

(Choose three.)

a) Alternate Route
b) Loop-Free Alternate Fast Reroute
c) BGP
d) HSRP
e) BFD
f) BGP Core and Edge Fast Reroute and Edge protection

Answer: a, b, f

Question: 7

If a router receives routes from a route reflector, packets destined to the learned prefixes by default must go through what path?

a) To the next BGP hop
b) The Route Reflextor
c) To the Next IGP hop
d) To the BGP neighbor

Answer: a

Question: 8

In a Cisco Unified MPLS for IP MBH network architecture the route scale is managed by the IGP route redistribution is?

a) doing some route summarization false
b) by using different IGP routing protocol between the Access and the Core
c) not distributed access IGP route to the Core
d) redistributed access IGP route to the Core

Answer: c

Question: 9

Which two options configures an ASR920 router as a hybrid clock? (Choose two.)

a) ptp clock boundary domain 0
b) ptp clock boundary domain 0 hybrid
c) ptp clock ordinary domain 0 hybrid
d) ptp clock ordinary domain 0
e) ptp clock

Answer: b, c

Question: 10

SyncE clocking is provided at what OSI layer?

a) Layer 3
b) Layer 2 and 3
c) Layer 1
d) Layer 2

Answer: b

What Study Guide Works Best in Acing the Cisco 500-240 Service Provider Mobile Backhaul for Field Engineers Certification?

The 500-240 CMBFE study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the Service Provider Mobile Backhaul for Field Engineers exam, getting in full touch of the **syllabus** is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

Make Your Schedule:

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

Get Expert Advice from the Training:

Do not forget to join the Cisco 500-240 training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

Get Access to the PDF Sample Questions:

If your study material is in a **PDF format** or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

Avoid Dumps and Utilize the Cisco 500-240 Practice Test:

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the exam structure and time management during the exam preparation can perform

well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, 500-240 practice tests always stand out to be the better choice than dumps PDF.

Avail the Proven 500-240 Practice Test for Success!!!

Do you want to pass the 500-240 exam on your first attempt? Stop worrying; we, NWExam.com are here to provide you the best experience during your Cisco Service Provider Mobile Backhaul for Field Engineers preparation. Try out our free mock tests to get a glimpse of our quality study materials, and build your confidence with the premium **500-240 practice tests**. Our expert-designed questions help you to improve performance and pass the exam on your first attempt.
