Get an Overview of the MB-320 Certification:

Who should take the [MB-320 exam](#)? This is the first question that comes to a candidate's mind when preparing for the Supply Chain Management, Manufacturing certification. The MB-320 certification is suitable for candidates who are keen to earn knowledge on the Microsoft Dynamics 365 and grab their Microsoft Certified - Dynamics 365 Supply Chain Management, Manufacturing Functional certification. When it is about starting the preparation, most candidates get confused regarding the study materials and study approach. But MB-320 study guide PDF is here to solve the problem. MB-320 PDF combines some effective sample questions and offers valuable tips to pass the exam with ease.

Why Should You Earn the Microsoft MB-320 Certification?

There are several reasons why one should grab the MB-320 certification.

- The Supply Chain Management, Manufacturing certification proves to be one of the most recognized certifications.
- The certification badge proves the knowledge of the candidate regarding subject matters and makes his resume presentable to potential employers.
- Thus earning the [Microsoft Certified - Dynamics 365 Supply Chain Management, Manufacturing Functional](#) is a powerful qualification for a prosperous career.

What is the Microsoft MB-320 Supply Chain Management, Manufacturing Certification Exam Structure?

Exam Name	Microsoft Certified - Dynamics 365 Supply Chain Management, Manufacturing Functional
Exam Code	MB-320
Exam Price	\$165 (USD)
Duration	120 mins
Number of Questions	40-60
Passing Score	700 / 1000
Books / Training	MB-320T00: Microsoft Dynamics 365 Supply Chain Management, Manufacturing
Schedule Exam	Pearson VUE
Sample Questions	Microsoft Supply Chain Management, Manufacturing Sample Questions
Practice Exam	Microsoft MB-320 Certification Practice Exam

Enhance Knowledge with MB-320 Sample Questions:

Question: 1

You work in the production department of Company A and you are assigned to work on a production order with the Started status. Microsoft Dynamics 365 Supply Chain Management is configured for automatic BOM consumption and manual route consumption. Due to a problem in the production process, it is necessary to record the consumption of raw material HM-875 for a higher quantity than was estimated on the production order. You need to post consumption of raw material HM-875 in the production order. What should you do?

- a) In the production order, create a job card journal manually by filling the additional consumption and then post the journal.
- b) In the production order, create a new picking list journal manually by filling the additional consumed quantity of the item and then post the journal.
- c) In the production order, create a route card journal manually by filling the additional consumption and then post the journal.
- d) In the production order, create a report as finished journal manually by filling the additional quantity consumption of the item and then post the journal.

Answer: b

Question: 2

A customer produces light projection toys for holiday decorations throughout the year. The production process creates the projections toy at the following work cells stands, main assembly, electric, visuals, and packaging.

Vendors must create visual templates for the company for each season. They must manage the transfer of visual templates to the warehouse. Each transfer for each vendor must use the same purchase agreement.

You need to configure the subcontracted transfer activity. What should you do?

- a) Set the transfer Freighted by value to Carrier. Ensure that purchase agreements include the vendor ID of the vendor.
- b) Set the transfer Freighted by value to Shipper. Ensure that purchase agreements include the vendor ID of the vendor.
- c) Set the transfer activity Freighted by value to Recipient. Ensure that purchase agreements include the vendor ID of the warehouse.
- d) Set the transfer activity Freighted by value to Carrier. Ensure that purchase agreements include the vendor ID of the warehouse.
- e) Set the transfer activity Freighted by value to Shipper. Ensure that purchase agreements include the vendor ID of the warehouse.
- f) Set the transfer activity Freighted by value to Recipient. Ensure that purchase agreements include the vendor ID of the vendor.

Answer: c

Question: 3

A company implements manufacturing in Dynamics 365 Supply Chain Management. The company wants to efficiently produce products comprised of different order types. You need to select the appropriate production plan.

Which production process should you use for the production run?

- a) discrete
- b) process
- c) lean
- d) mixed mode

Answer: d

Question: 4

You are a manufacturing consultant helping a company to implement the master planning process.

The customer wants to determine how many items they need to purchase based on all the relevant information available in the system. You need to identify which information can be used by master planning.

Which five data sources can be used by the Master planning engine to define purchase order requirements?

Each correct answer presents part of the solution.

- a) Sales orders
- b) Route card journals
- c) Demand forecasts
- d) Production orders
- e) Inventory safety stock
- f) Sales quotations
- g) Sales agreements

Answer: a, c, d, e, f

Question: 5

A paint manufacturer is using Process manufacturing. The manufacturer has a quality error. Batches of paint that use the wrong formula have been marked for rework.

The production planner reports they cannot schedule the batch order even though the order has been estimated.

You need to add reservations to the items to be used for the rework order. What should you do?

- a) Reserve the inventory in the formula
- b) Reset the batch order and delete the formula items. Re-enter the formula items
- c) Add by-products that need to be used and then re-estimate
- d) Add co-products that need to be used and then re-estimate

Answer: a

Question: 6

A company is implementing Dynamics 365 for Finance and Operations in their manufacturing environment. The manufacturing process uses formulas to direct material consumption on the batch orders.

During production some items in the formula must be consumed automatically from the production area, while some must be picked with their actual consumption reported on a pick list.

You need to determine which setup method is used for formula lines to allow for the desired mixed method picking processes.

What are two possible ways to achieve this goal?

Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

- a) Leave the flushing principle blank on formula lines and set resource consumption to direct flushing principle of materials based on consumption method for the line.
- b) Leave the flushing principle blank on formula lines and set the default start value to Always for Automatic Bill of Material Consumption.
- c) Leave the flushing principle blank on formula lines and set default flushing principle on the items based on consumption method for the item.
- d) Set the flushing principle on each formula line based on consumption method for the line.

Answer: a, d

Question: 7

You are the lead product design manager at a Process manufacturing plant. You are building a formula that produces egg yolks as a by-product.

This by-product is added back into inventory at standard cost and can be used in other production batches. You need to select the by-product cost allocation.

Which cost allocation type should you use?

- a) Per series
- b) Per quantity
- c) Recycled
- d) Percent

Answer: c

Question: 8

A beverage company uses Dynamics 365 Supply Chain Management batch processing for production. You need to identify the ingredient type used in batch processing when the base attribute of a product is added to a formula line.

What is the ingredient type?

- a) filler
- b) active
- c) compensating
- d) none

Answer: b

Question: 9

A company is looking to use Dynamics 365 Supply Chain Management. The company is in the process of redesigning and retooling an existing manufacturing plant to group similar, cellular operations to improve efficiency and minimize wasted time between operations.

They want to locate raw materials close to where they are needed without losing reorder visibility. You need to set up their environment.

Which kind of production type should you implement?

- a) Lean manufacturing
- b) Process manufacturing
- c) Discrete manufacturing
- d) Manufacturing execution

Answer: a

Question: 10

You are responsible for product and formula maintenance for a paint manufacturer. You create a formula for white paint and add its lines.

When the formula size increases or an ingredient changes, the quantity of the pigment ingredient must be adjusted proportionately.

You need to set up the formula line for the pigment. Which formula feature should you use?

- a) Pegged supply
- b) Step consumption
- c) Scalable
- d) Variable

Answer: c

What Study Guide Works Best in Acing the Microsoft MB-320 Supply Chain Management, Manufacturing Certification?

The MB-320 study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the Supply Chain Management, Manufacturing exam, getting in full touch of the [syllabus](#) is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

Make Your Schedule:

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your study schedule must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

Get Expert Advice from the Training:

If there is related Microsoft training, don't miss out the chance to join. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

Get Access to the PDF Sample Questions:

If your study material is in a [PDF format](#) or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

Avoid Dumps and utilize the Microsoft MB-320 Practice Test:

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the exam structure and time management during the exam preparation can perform well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, MB-320 practice tests always stand out to be the better choice than dumps PDF.

Avail the Proven MB-320 Practice Test for Success!!!

Do you want to pass the MB-320 exam on your first attempt? Stop worrying; EduSum.com is here to provide you the best experience during your Microsoft Dynamics 365 Supply Chain Management, Manufacturing preparation. Try out our free mock tests to get a glimpse of our quality study materials, and build your confidence with the premium [MB-320 practice tests](#). Our expert-designed questions help you to improve performance and pass the exam on your first attempt.
