- d) Support for ABAP syntax

Answer: a, b

Question: 6

You are building a CUBE calculation view with an aggregation node that calculates total sales, based on the data shown in the graphic. The price may vary based on SHIRT_ID and PROMO_LEVEL only. The calculation is Total Sales = PRICE * QUANTITY.

How do you ensure accurate results, regardless of the columns in the query output?

Please choose the correct answer.

| STATE | SHIRT_ID | PROMO_LEVEL | PRICE | QUANTITY |
|-------|----------|-------------|-------|----------|
| GA | X123 | H | 10 | 10 |
| NY | X123 | M | 5 | 10 |
| GA | Y123 | H | 12 | 10 |
| NY | Y123 | M | 6 | 10 |
| GA | Y123 | M | 6 | 10 |
| GA | X123 | M | 5 | 10 |

- a) Set the Keep Flag property for SHIRT_ID
- b) Set the Dynamic Partition property for SHIRT_ID and PROMO_LEVEL.
- c) Set the Calculate before Aggregation property.
- d) Set the Keep Flag property for SHIRT_ID and PROMO_LEVEL.

Answer: d

Question: 7

What can you discover using Data Lineage?

Please choose the correct answer.

- a) Data changes since last refresh
- b) Frequency of load
- c) Underlying calculation views and tables
- d) Access statistics

Answer: c

Question: 8

Which of these cloud providers are supported by the multi-cloud SAP BTP environment?

Please choose the correct answer.

- a) Alibaba Cloud
AWS
Google Cloud Platform
Microsoft Azure
- b) Alibaba Cloud
AWS
IBM Cloud Platform
Microsoft Azure
- c) AWS
Google Cloud Platform
IBM Cloud Platform
Microsoft Azure
- d) Alibaba Cloud
Google Cloud Platform
IBM Cloud Platform
Microsoft Azure

Answer: a

Question: 9

Which of the following tasks are required to generate the database objects in the HDI container?

There are 2 correct answers to this question.

Answer: a, d

Question: 10

In a calculation view, you use a rank node to identify the purchase orders with the highest total amount. The expected output includes the top orders that represent 15% of the total numbers of orders placed by each customer.

How do you set the Aggregation Function and Result Set Type properties of the rank node to get the expected result?

Please choose the correct answer.

- a) Aggregation Function: Sum
Result Set Type: Percentage
- b) Aggregation Function: Sum
Result Set Type: Absolute
- c) Aggregation Function: Row
Result Set Type: Percentage
- d) Aggregation Function: Rank
Result Set Type: Absolute

Answer: c

What Study Guide Works Best in Acing the SAP C_HCMOD_03 HANA Cloud Modeling Certification?

The C_HCMOD_03 study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the HANA Cloud Modeling exam, getting in full touch of the [syllabus](#) is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

Make Your Schedule:

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

Get Expert Advice from the Training:

Do not forget to join the SAP C_HCMOD_03 training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

Get Access to the PDF Sample Questions:

If your study material is in a [PDF format](#) or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

Avoid Dumps and Utilize the SAP C_HCMOD_03 Practice Test:

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the exam structure and time management during the exam preparation can perform well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, C_HCMOD_03 practice tests always stand out to be the better choice than dumps PDF.

Avail the Proven C_HCMOD_03 Practice Test for Success!!!

Do you want to pass the C_HCMOD_03 exam on your first attempt? Stop worrying; we, ERPPrep.com are here to provide you the best experience during your HANA Cloud Modeling preparation. Try out our free mock tests to get a glimpse of our quality study materials, and build your confidence with the premium [C_HCMOD_03 practice tests](#). Our expert-designed questions help you to improve performance and pass the exam on your first attempt.
