Get an Overview of the 300-425 ENWLSD Certification:

Who should take the [300-425 exam](#)? This is the first question that comes to a candidate's mind when preparing for the CCNP Enterprise certification. The 300-425 certification is suitable for candidates who are keen to earn knowledge on the Enterprise and grab their Cisco Certified Network Professional Enterprise. When it is about starting the preparation, most candidates get confused regarding the study materials and study approach. But 300-425 ENWLSD study guide PDF is here to solve the problem. 300-425 PDF combines some effective sample questions and offers valuable tips to pass the exam with ease.

Why Should You Earn the Cisco 300-425 Certification?

There are several reasons why one should grab the 300-425 certification.

- The CCNP Enterprise certification proves to be one of the most recognized certifications.
- The certification badge proves the knowledge of the candidate regarding subject matters and makes his resume presentable to potential candidates.
- Thus earning the [Cisco Certified Network Professional Enterprise](#) is a powerful qualification for a prosperous career.

What Is the Cisco 300-425 CCNP Enterprise Certification Exam Structure?

Exam Name	Designing Cisco Enterprise Wireless Networks
Exam Number	300-425 ENWLSD
Exam Price	\$300 USD
Duration	90 minutes
Number of Questions	55-65
Passing Score	Variable (750-850 / 1000 Approx.)
Recommended Training	Designing Cisco Enterprise Wireless Networks (ENWLSD)

Exam Registration	PEARSON VUE
Sample Questions	Cisco 300-425 Sample Questions
Practice Exam	Cisco Certified Network Professional Enterprise Practice Test

Enhance Knowledge with 300-425 Sample Questions:

Question: 1

Your junior associate wants to start surveying a cubicle space in an office building. Where should the associate position the first AP to start the AP-on-a-stick survey?

- a) At the corner of the building floor
- b) At the geometric center of the floor
- c) At the center of one cubicle block
- d) Over the corridor between two cubicle blocks

Answer: a

Question: 2

Which one of the following applications would be the most appropriate use for an AP model that has internal antennas?

- a) A location where a relatively wide coverage area is desired
- b) A location where coverage is needed toward one side of the AP
- c) A location where a patch antenna's pattern is required
- d) A location where an omnidirectional antenna is not desirable

Answer: a

Question: 3

The SNR is correctly measured according to which one of the following statements?

- a) The AP's transmit power level minus the noise floor
- b) The receiver's sensitivity level minus the noise floor
- c) The noise floor minus the AP's transmit power level
- d) The RSSI minus the noise floor

Answer: d

Question: 4

During your Layer 1 sweep in an office building, you find RF traces near a desk showing low power as well as multiple spikes across the 2.4GHz band. Which transmitter is most likely to produce this pattern?

- a) A wireless security camera
- b) An old 802.11b access point
- c) A microwave oven
- d) A Bluetooth headset

Answer: d**Question: 5**

You need to perform a site survey for voice and real-time application support. What is the correct way to proceed?

- a) Perform a data site survey first. Then multiply the AP density by 1.3.
- b) Perform a data site survey, using a phone to measure the AP signal.
- c) Perform a voice survey, testing calls to evaluate each cell edge.
- d) Perform a standard survey, using voice RF parameters.

Answer: d**Question: 6**

What is the primary purpose of coverage in a hospital?

- a) Staff mobile devices
- b) Medical machines
- c) Patient and guest Wi-Fi
- d) All of the above
- e) Can't say without more information

Answer: e**Question: 7**

A high-density area in a wireless design is determined by which one of the following things?

- a) More clients are using the 5GHz band than the 2.4GHz band.
- b) A small number of clients in an area are using high-bandwidth applications.
- c) A higher number of clients associate with each AP in an area.
- d) A higher amount of RF coverage is needed in an area.

Answer: c

Question: 8

A single mobility group can have a maximum of how many controllers?

(Choose one.)

- a) 10
- b) 24
- c) 50
- d) 72

Answer: b

Question: 9

When deploying higher throughput wireless technologies in Local mode, what design aspect must be considered related to possible oversubscription of the physical infrastructure?

- a) Uplink capabilities of the access switch should be considered.
- b) Physical connections between the access switch and AP should be considered.
- c) Performance of the backbone network connecting to the controller should be aligned with overall wireless performance demands.
- d) Performance capabilities of the controller should be considered.
- e) All of the above.

Answer: e

Question: 10

How are wired clients connected to MAPs bridged through the mesh network?

- a) They are encapsulated in CAPWAP and emerge on the configured VLAN on the controller.
- b) Wired clients are not supported on a wireless mesh.
- c) Wired traffic is not encapsulated in CAPWAP and is directed to the wired switch connected to the RAP.
- d) Wired traffic is encapsulated in a special mesh frame header that is handled by the controller and then switched to the matching VLAN.

Answer: d

What Study Guide Works Best in Acing the Cisco 300-425 CCNP Enterprise Certification?

The 300-425 ENWLSD study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the CCNP Enterprise exam, getting in full touch of the [syllabus](#) is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

Make Your Schedule:

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

Get Expert Advice from the Training:

Do not forget to join the Cisco 300-425 training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

Get Access to the PDF Sample Questions:

If your study material is in a [PDF format](#) or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

Avoid Dumps and Utilize the Cisco 300-425 Practice Test:

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the exam structure and time management during the exam preparation can perform

well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, 300-425 practice tests always stand out to be the better choice than dumps PDF.

Avail the Proven 300-425 Practice Test for Success!!!

Do you want to pass the 300-425 exam on your first attempt? Stop worrying; we, NWExam.com are here to provide you the best experience during your Designing Cisco Enterprise Wireless Networks preparation. Try out our free mock tests to get a glimpse of our quality study materials, and build your confidence with the premium [300-425 practice tests](#). Our expert-designed questions help you to improve performance and pass the exam on your first attempt.
