Practice Exam	<a href="#">Juniper Networks Certified Professional Service Provider Routing and Switching Practice Test</a>

## Enhance Knowledge with JN0-664 Sample Questions:

### Question: 1

Packets enter a Junos device and are classified with CoS. During the processing of the packet, the classification of the packets is changed.

Which two statements are true regarding default CoS rewrite on Junos devices? (Choose two.)

- a) Bits associated with a DSCP traffic class are rewritten to match the new traffic classification values.
- b) Bits associated with MPLS traffic class are rewritten to match the new traffic classification values.
- c) Bits associated with DSCP traffic class are not rewritten to match the new traffic classification values.
- d) Bits associated with MPLS traffic class are not rewritten to match the new traffic classification values.

**Answer: b, c**

### Question: 2

You use OSPF as your IGP. You are configuring an MPLS overlay that crosses your network and want to configure engineered paths that use link colors for path selection. Which action must you perform?

- a) Configure [set protocols mpls no-cspf].
- b) Configure traffic-engineering under [protocols ospf].
- c) Use LDP signaled LSPs.
- d) Configure [set protocols mpls traffic-engineering bgp-igp].

**Answer: b**

**Question: 3**

You are configuring an OSPF network. You want to break it up into three areas. Area 0 contains two routers. A router connects to each router in Area 0 with a single link.

Which two statements are true?

(Choose two.)

- a) The non-zero areas must have unique area IDs.
- b) The routes from the non-zero areas will be summarized by default.
- c) The routes from the non-zero areas will not be summarized by default.
- d) The non-zero areas can both have the same area ID.

**Answer: c, d**

**Question: 4**

You are provisioning a L3VPN service for your customer. Customer traffic must leave your AS to reach a remote site. Which statement is true?

- a) A single LSP can be created across AS boundaries.
- b) GRE tunneling must be used to cross the peer AS.
- c) A L3VPN must be used to cross the peer AS.
- d) BGP can advertise labels to the peer AS.

**Answer: d**

**Question: 5**

Junos devices use the token bucket algorithm for policing. Which two statements are true regarding the token bucket algorithm?

(Choose two.)

- a) Policers transmit streams of traffic at the maximum interface speed until the burst rate is reached.
- b) Policers do not reduce the speed of an interface.
- c) Policers reduce the speed of an interface.
- d) Policers enforce gaps between transmitted packets.

**Answer: b, d**

**Question: 6**

You have configured a L3VPN across your network and are using GRE tunnels for transit. Which two statements are true?

(Choose two.)

- a) The gre tunnel interface must be placed in the routing instance.
- b) The tunnel interface must be added to inet.3.
- c) Route reflectors cannot be used for route exchange.
- d) Family MPLS must be enabled on the tunnel interface.

**Answer: b, d**

**Question: 7**

Which two statements are true regarding EVPN?

(Choose two.)

- a) Multihomed CEs require a unique ESI for each of the links.
- b) With a multihomed CE, both PEs must use the same ESI when connected to the same CE.
- c) The ESI for all sites in an EVPN domain must be the same.
- d) The ESI for each site in an EVPN must be unique.

**Answer: b, d**

**Question: 8**

Regarding VPLS, which two can be configured to prevent a loop when a CE is multihomed to a single PE?

(Choose two.)

- a) unique route target for each connection
- b) Spanning Tree Protocol
- c) LAG
- d) VLAN tagging

**Answer: b, c**

**Question: 9**

Referring to IS-IS, what is the purpose of a mesh group?

- a) to prevent redundant flooding of LSPs in a full mesh network
- b) to guarantee delivery of LSPs in a full mesh network
- c) to segment a router into multiple broadcast domains
- d) to cause a router to flood LSPs to all members of a group

**Answer: a**

**Question: 10**

Which function allows an OSPF network to span a L3VPN?

- a) sham link
- b) virtual link
- c) OSPF direct peering
- d) route redistribution

**Answer: a**

## What Study Guide Works Best in Acing the Juniper JN0-664 JNCIP Service Provider Certification?

The JN0-664 study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

### Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the JNCIP Service Provider exam, getting in full touch of the [syllabus](#) is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

## Make Your Schedule:

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

## Get Expert Advice from the Training:

Do not forget to join the Juniper JN0-664 training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

## Get Access to the PDF Sample Questions:

If your study material is in a [PDF format](#) or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

## Avoid Dumps and Utilize the Juniper JN0-664 Practice Test:

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the exam structure and time management during the exam preparation can perform well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, JN0-664 practice tests always stand out to be the better choice than dumps PDF.
