## Enhance Knowledge with NS0-593 Sample Questions:

### Question: 1

Your organization is deploying a new Amazon FSx for NetApp ONTAP working environment. Which two statements describe what must be completed to accomplish this task? (Choose two.)

- a) Create an Identity and Access Management (IAM) user with the default administrator role.
- b) Ensure that each node is in a dedicated Availability Zone.
- c) Create an AWS access key and secret key for the Identity and Access Management (IAM) user.
- d) Specify no greater than two IOPS per GiB total capacity.

**Answer: b, c**

### Question: 2

After upgrading to NetApp ONTAP 9.8 software, you see the EMS events shown below.

```
FONT face="Courier New" fontsize="11">Fri Sep 10 01:47:19 -0400 [CLUSTER-01: kernel: nblade.execsOverLimit:error]: The number of in-flight requests from client with source IP 10.11.12.13 to destination LIF 10.100.1.50 (Vserver 7) is greater than the maximum number of in-flight requests allowed (128). The client might see degraded performance due to request throttling.
```

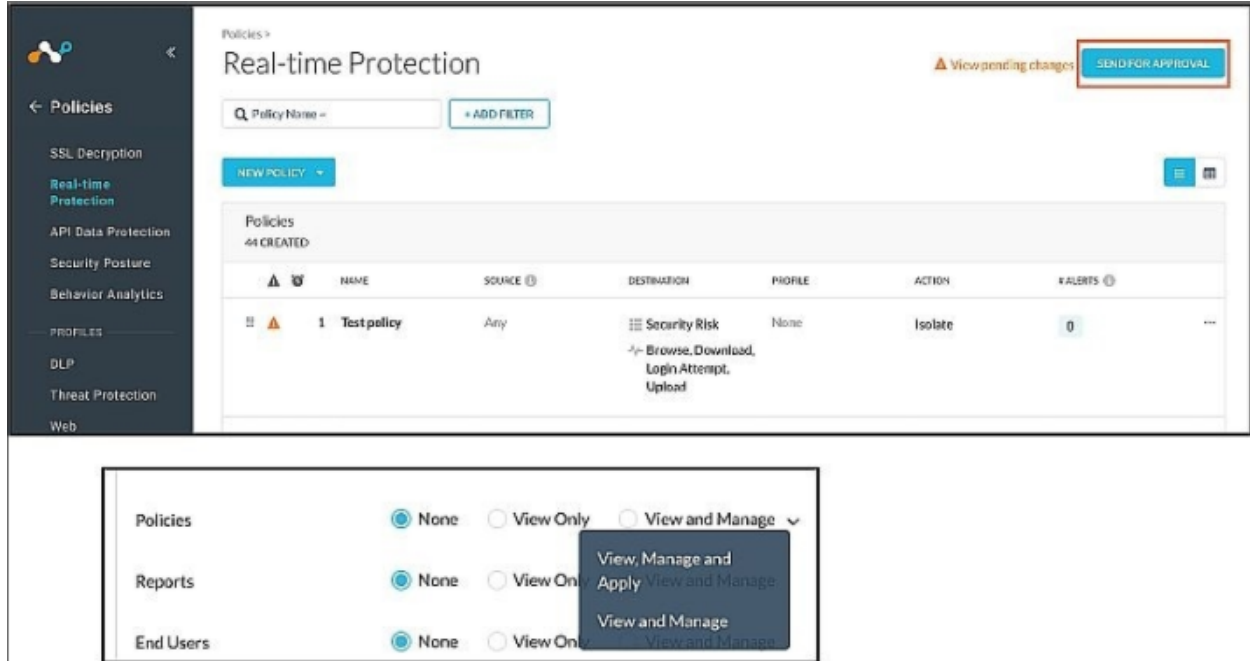

You want to stop the EMS events if the Linux client has multiple mounts using NFSv3 and NFSv4. In this scenario, which two actions will solve this problem? (Choose two.)

- a) Set the `<FONT face="Courier New" fontsize="11">-v4.x-session-num-slots</FONT>` on the NFS server to 128.
- b) Set the `<FONT face="Courier New" fontsize="11">sunrpc.tcp_slot_table_entries</FONT>` on the NFS client to 128 or lower.
- c) Set the `<FONT face="Courier New" fontsize="11">sunrpc.tcp_slot_table_entries</FONT>` on the NFS server to 128 or lower.
- d) Set the `<FONT face="Courier New" fontsize="11">-v4.x-session-slot-reply-cache-size</FONT>` on the NFS server to 128.

**Answer: a, b**

**Question: 3**

Exhibit:

After using NVMe/FC for some time, hosts report missing paths to an AFF controller. Referring to the exhibit, which two steps would troubleshoot this issue? (Choose two.)

- a) Review the event log.
- b) Verify the port status using the `sysconfig` command.
- c) Set the operational port status of 1b to `online`.
- d) Verify the zoning configuration.

**Answer: a, b**

**Question: 4**

When using hardware RAID, which RAID option is available in NetApp ONTAP Select?

- a) RAID 5
- b) RAID 0
- c) RAID-DP
- d) RAID 4

**Answer: b**

**Question: 5**

You have a database server with highly transactional workloads. The server uses FCP to connect to your FAS cluster. You want to implement QoS to ensure that other workloads are not heavily impacted by the database server's workload.

Which QoS configuration satisfies this requirement?

- a) Configure the MBps QoS maximum on the database server's LUN.
- b) Configure the IOPS QoS minimums on the other workloads' volumes.
- c) Configure the MBps QoS minimums on the other workloads' volumes.
- d) Configure the IOPS QoS maximum on the database server's LUN.

**Answer: d**

**Question: 6**

You have replaced the motherboard of your single-node cluster. Ninety days later, your users complain about being unable to access any NFS shares.

In this scenario, what is the reason for this behavior?

- a) You need to install new licenses after replacing the motherboard.
- b) NFS requires an additional reboot of the node after a motherboard replacement.
- c) The motherboard was not installed properly.
- d) The clock was not set correctly on the new motherboard.

**Answer: a**

**Question: 7**

Your customer's storage system rebooted due to a panic event. After investigating the system with the NetApp Support team, you are asked to transfer a core from NetApp ONTAP software to NetApp for a more detailed investigation of the problem.

Which two methods are available to perform this task? (Choose two.)

- a) Upload the core by using the `coredump upload` command.
- b) Upload the core by using AutoSupport.
- c) Send the core using e-mail to NetApp Support.
- d) Upload the core by using ONTAP System Manager.

**Answer: a, b**

**Question: 8**

You are working for an IT consulting company. You want to automatically obtain monthly reports for your NetApp customers by printing out the actual health status of their storage environment.

In this scenario, which online tool would you use to accomplish this task?

- a) NetApp Active IQ OneCollect
- b) NetApp Fabric Orchestrator
- c) NetApp Active IQ
- d) NetApp ONTAP System Manager

**Answer: c**

**Question: 9**

Your customer wants to use the new NVMe protocol in an existing Fibre Channel environment. Which two components are required to satisfy this request?

(Choose two.)

- a) an AFF A-Series node with a 16 Gbps FC target adapter
- b) an AFF A-Series node with a 100 Gbps NVMe RoCE adapter
- c) Gen 5 or newer FC switches
- d) an AFF A-Series node with a 32 Gbps FC target adapter

**Answer: c, d**

**Question: 10**

While you test a new SVM for multiprotocol access, copying new files from NFS clients to an NTFS security style volume fails with the <FONT face="Courier New" fontsize="11">Operation not permitted</FONT> error and results in 0 byte files.

In this scenario, which action should you take to solve this issue?

- a) Verify that the Vserver NTFS UNIX security option is set to <FONT face="Courier New" fontsize="11">ignore</FONT>.
- b) Verify that the Vserver NTFS UNIX security option is set to <FONT face="Courier New" fontsize="11">fail</FONT>.
- c) Verify the permissions on the parent folder.
- d) Verify name mapping for the UNIX users.

**Answer: a**

# What Study Guide Works Best in Acing the NetApp NS0-593 NCSE ONTAP Specialist Certification?

The NS0-593 study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

## Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the NCSE ONTAP Specialist exam, getting in full touch of the [syllabus](#) is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

## Make Your Schedule:

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

## Get Expert Advice from the Training:

Do not forget to join the NetApp NS0-593 training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

## Get Access to the PDF Sample Questions:

If your study material is in a [PDF format](#) or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

## Avoid Dumps and Utilize the NetApp NS0-593 Practice Test:

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the exam structure and time management during the exam preparation can perform

well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, NS0-593 practice tests always stand out to be the better choice than dumps PDF.
