Enhance Knowledge with MS-100 Sample Questions:

Question: 1

You have a Microsoft 365 subscription. You configure a data loss prevention (DLP) policy. You discover that users are incorrectly marking content as false positive and bypassing the DLP policy.

You need to prevent the users from bypassing the DLP policy. What should you configure?

- a) actions
- b) exceptions
- c) incident reports
- d) user overrides

Answer: d

Question: 2

You manage a Microsoft 365 tenant that has Office 365 Professional Plus. You plan to use the Office Deployment Tool (ODT) to configure updates for Office. You create an XML file with the following contents:

```
<Configuration>
<Add OfficeClientEdition="32" OfficeMgmtCOM="True" >
<Product ID="0365ProPlusRetail" >
<Language ID="en-us" />
</Product>
</Add>
<Updates Enabled="True"/>
</Configuration>
```

You need to ensure that users in your organization receive updates as soon as they are available. What should you do?

- a) Add an element named Frequency to the Configuration element and set its value to RTM.
- b) Set the Channel attribute of the Add element to Monthly.
- c) Set the OfficeMgmtCOM attribute of the Add element to False.
- d) Set the Channel attribute of the Add element to Broad.

Answer: b

Question: 3

You have a Microsoft 365 tenant that contains Microsoft Exchange Online. You plan to enable calendar sharing with a partner organization named adatum.com. The partner organization also has a Microsoft 365 tenant.

You need to ensure that the calendar of every user is available to the users in adatum.com immediately. What should you do?

- a) From the Exchange admin center, create a sharing policy.
- b) From the Exchange admin center, create a new organization relationship.
- c) From the Microsoft 365 admin center, modify the Organization profile settings.
- d) From the Microsoft 365 admin center, configure external site sharing.

Answer: b

Question: 4

Your network is configured as an Active Directory Domain Services (AD DS) domain. Domain users are in organizational units (OUs) by department.

You run a pilot test with Azure Active Directory (Azure AD) synchronization to include a small subset of users. You create a group named ADDPilot and add the pilot users to the group. You install Azure AD Connect and configure filtering based on the ADDPilot group and the Operations OU.

You need to disable group filtering and configure filtering based on select OUs. You want to avoid changes to users that are already synchronized. What should you do first?

- a) Delete the ADDPilot group.
- b) Uninstall Azure AD Connect.
- c) Disable the built-in scheduler.
- d) Run the Azure AD Connect installer.

Answer: c

Question: 5

Reference Scenario: [click here](#)

You are evaluating the required processes for Project1. You need to recommend which DNS record must be created before adding a domain name for the project.

Which DNS record should you recommend?

- a) mail exchanger (MX)
- b) alias (CNAME)
- c) host (A)
- d) host (AAA)

Answer: a

Question: 6

You have a Microsoft 365 subscription. A new corporate security policy states that you must automatically send DLP incident reports to the users in the legal department. You need to schedule the email delivery of the reports. The solution must ensure that the reports are sent as frequently as possible.

How frequently can you schedule the delivery of the reports?

- a) hourly
- b) monthly
- c) weekly
- d) daily

Answer: c

Question: 7

Your company has its main office in Los Angeles and a branch office in Bakersfield. Both offices are part of the same Windows Active Directory (AD) domain and are configured as separate sites. The network includes both company-owned and personal devices.

Your company implements a Microsoft 365 tenant and is rolling out support for cloud-based applications to replace on-premises applications. You configure a hybrid identity with federated authentication. You deploy Intune and enroll company-owned devices. You enable Azure multi-factor authentication (MFA).

As part of your initial rollout, you need to restrict access to SharePoint Online (SPO) to company-managed devices located in the Los Angeles office. Which feature should you use?

- a) Intune device configuration profile
- b) Azure AD app passwords
- c) Intune device compliance policy
- d) Azure AD Conditional Access

Answer: d

Question: 8

Your network is configured as a Windows Active Directory (AD) domain. You are implementing a Microsoft 365 subscription. You create an Azure Active Directory (Azure AD) tenant and run an Azure AD Connect Express Installation.

You need to configure access to an on-premises application for users signing in through Azure AD. What do you need to install on your on-premises network?

- a) Azure Application Proxy connector
- b) Web Application Proxy (WAP) server
- c) Active Directory Federation Services (AD FS) infrastructure
- d) Network Policy Server (NPS)

Answer: a

Question: 9

You have a Microsoft 365 subscription. You suspect that several Microsoft Office 365 applications or services were recently updated. You need to identify which applications or services were recently updated.

What are two possible ways to achieve the goal?

Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

- a) From the Microsoft 365 admin center, review the Message center blade.
- b) From the Office 365 Admin mobile app, review the messages.
- c) From the Microsoft 365 admin center, review the Products blade.
- d) From the Microsoft 365 admin center, review the Service health blade.

Answer: a, b

Question: 10

You have a Microsoft 365 subscription. You need to prevent phishing email messages from being delivered to your organization. What should you do?

- a) From the Exchange admin center, create an anti-malware policy.
- b) From Security & Compliance, create a DLP policy.
- c) From Security & Compliance, create a new threat management policy.
- d) From the Exchange admin center, create a spam filter policy.

Answer: c

What Study Guide Works Best in acing the MS-100 Microsoft 365 Identity and Services Certification?

The MS-100 study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the Microsoft 365 Identity and Services exam, getting in full touch of the [syllabus](#) is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

Make Your Schedule:

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

Get Expert Advice from the Training:

Do not forget to join the Microsoft MS-100 training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

Get Access to the PDF Sample Questions:

If your study material is in a [PDF format](#) or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

Avoid Dumps and utilize the Microsoft MS-100 Practice Test:

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the exam structure and time management during the exam preparation can perform well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, MS-100 practice tests always stand out to be the better choice than dumps PDF.

Avail the Proven MS-100 Practice Test for Success!!!
