Get an Overview of the NCM-MCI Certification:

Who should take the **NCM-MCI exam**? This is the first question that comes to a candidate's mind when preparing for the Multicloud Infrastructure certification. The NCM-MCI certification is suitable for candidates who are keen to earn knowledge on the Master Level and grab their Nutanix Certified Master - Multicloud Infrastructure (NCM-MCI). When it is about starting the preparation, most candidates get confused regarding the study materials and study approach. But NCM-MCI study guide PDF is here to solve the problem. NCM-MCI PDF combines some effective sample questions and offers valuable tips to pass the exam with ease.

Why Should You Earn the Nutanix NCM-MCI Certification?

There are several reasons why one should grab the NCM-MCI certification.

- The Multicloud Infrastructure certification proves to be one of the most recognized certifications.
- The certification badge proves the knowledge of the candidate regarding subject matters and makes his resume presentable to potential candidates.
- Thus earning the **Nutanix Certified Master - Multicloud Infrastructure (NCM-MCI)** is a powerful qualification for a prosperous career.

What Is the Nutanix NCM-MCI Multicloud Infrastructure Certification Exam Structure?

Exam Name	Nutanix Certified Master - Multicloud Infrastructure
Exam Code	NCM-MCI
Exam Price	$299 USD
Duration	180 minutes
Number of Questions	16-20
Passing Score	3000/1000-6000
Recommended Training / Books	**Advanced Administration & Performance Management (AAPM) v6.5**
Schedule Exam	**Nutanix**
Sample Questions	**Nutanix NCM-MCI Sample Questions**
Recommended Practice	**Nutanix Certified Master - Multicloud Infrastructure (NCM-MCI) Practice Test**

Enhance Knowledge with NCM-MCI Sample Questions:

Question: 1

An administrator is configuring software only. Data-at-Rest Encryption on their Nutanix cluster. They are planning to deploy a third-party key management server (KMS). Where should this server be hosted?

a) As a single VM on the Nutanix cluster
b) On hardware external to the Nutanix duster
c) As a clustered VM setup on the Nutanix cluster
d) As a single VM deployed on the host that contains the Prism leader CVM

Answer: b

Question: 2

The networking team makes changes to the Top of Rack switches to which the Nutanix cluster are attached. A few VMs are able to communicate with each other on the same node but are unable to connect to other parts of the network. What is the likely cause of this issue?

a) There is a VLAN misconfiguration on the VMs.
b) Jumbo Frame are misconfigured across ports.
c) The vNIC port is disconnected on the affected VMs.
d) There is a VLAN misconfiguration on the switch.

Answer: d

Question: 3

In a Nutanix cluster, a Protection Domain contains 50 entities that are replicated to a remote Single Node Replication Target. The current schedule configuration is as follows:

- Repeat every 6 hours
- Local Retention Policy 1
- Remote Retention Policy 8
- Starting time 12 am

At 8 am on Monday, the administrator discovers that a protected VM is corrupted. The latest good state was Sunday 2 pm. The administrator needs to maintain current protection. Which strategy should the administrator use to meet these requirements?

a) From the Remote site, activate the Protection Domain, then re-protect the entity.
b) From the Remote site, restore the VM from the local snapshot by selecting the correct snapshot.
c) From the local site, retrieve the correct remote snapshot, then restore the VM locally.
d) From the local site, restore the VM from the local snapshot by selecting the correct snapshot.

Answer: c

Question: 4

An administrator needs to forecast infrastructure requirements for a new program and its associated applications. Prior to the projected start of the new program, all existing applications will be decommissioned. How should the administrator perform this task?

a) Check the Disregard Existing Workloads radio button in the Runway scenario.
b) Check the Disregard Existing Nodes radio button in the Runway scenario.
c) Add up the recovered workloads and manually remove from the Runway configuration.
d) Power down the workloads during a maintenance window and run the Capacity Runway.

Answer: a

Question: 5

For several days, an administrator notices the following alerts:

- CVM NIC Speed Low Warning Alerts
- Warning Alerts of CVM NIC not performing at optimal speed
- CVM is disconnected from the network Critical Alert
- Network Visualization page shows excessive dropped packets on CVM/Host.

Which steps should be taken to determine which problem should be addressed first?

a) - Restart networking services on the CVM
   - Determine the current configuration of the affected CVM via output
   - Access the Alerts/Events page for the CVM network connection failures
b) - Review Alerts page for NIC speed alerts and alert timing
   - Analyze the genesis.out log file for process failures
   - Assess the NIC properties in the Network Visualization > Host Properties page
c) - Verify Host/CVM connectivity on the Network Visualization page
   - Use to verify the bridge and bond configuration
   - Review alerts/events page for the CVM disconnected error
d) - Access the Hardware Page to verify resources are available
   - Analyze all CVM Speed Alerts in the Alerts/Events page
   - Analyze output for the network and interface properties and connectivity issues

Answer: c

Question: 6

A company needs to replicate their VMs to a remote site and must have an RPO of less than 1 hour. When creating a protection domain, what should an administrator do to meet this requirement?

a) Enable Async Replication with an RPO of 60 minutes
b) Enable Near-Sync Replication with an RPO of 15 minutes
c) Enable Entity Sync on the designated VMs
d) Enable Availability Zones and send the VM to multiple targets

Answer: b

Question: 7

Microsegmentation was recently enabled in a Nutanix environment. The administrator wants to leverage Prism Central to create a policy that will block all traffic, regardless of direction, between two groups of Vms identified by their category.

Which policy should be used to meet this requirement?

- a) A Quarantine Policy
- b) An Isolation Environment Policy
- c) An Application Security Policy
- d) A Whitelist-Based Policy

Answer: b

Question: 8

While creating an image placement policy on the organizations AOS 5.15-based Nutanix cluster, the administrator wants to ensure there are no restrictions on using the selected images on clusters outside of the identified set. What type of Policy Enforcement must the administrator choose?

- a) Soft
- b) Internal
- c) Hard
- d) External

Answer: a

Question: 9

An organization is running a Nutanix Cluster based on AOS 5.10.x and VMware vSphere 6.7. Currently, the CVM network is segmented and Storage only nodes not present. A new security project based on NSX is coming. VMware Distributed Virtual Switches are required. The administrator needs to prepare the environment for the new project.

Which step should the administrator use to initiate the project?

- a) Convert storage only nodes into vSphere nodes
- b) Enable Jumbo Frames to accommodate network frames
- c) Enable Nutanix Flow at the Prism Central Level
- d) Manually disable CVM network Segmentation

Answer: b

Question: 10

An administrator needs to relocate an AHV cluster to a new datacenter during a maintenance window. The cluster will use the same IPs in the new datacenter. Which two steps should be taken to prepare for this task?

(Choose two.)

a) Stop all Nutanix Files clusters
b) Relocate the linked LDAP servers
c) Shut down all user VMs in the cluster
d) Reconfigure IPMI for the new datacenter

Answer: a, c

What Study Guide Works Best in Acing the Nutanix NCM-MCI Multicloud Infrastructure Certification?

The NCM-MCI study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the Multicloud Infrastructure exam, getting in full touch of the **syllabus** is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

Make Your Schedule:

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

Get Expert Advice from the Training:

Do not forget to join the Nutanix NCM-MCI training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

Get Access to the PDF Sample Questions:

If your study material is in a **PDF format** or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

Avoid Dumps and Utilize the Nutanix NCM-MCI Practice Test:

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the exam structure and time management during the exam preparation can perform well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, NCM-MCI practice tests always stand out to be the better choice than dumps PDF.

Avail the Proven NCM-MCI Practice Test for Success!!!

Do you want to pass the NCM-MCI exam on your first attempt? Stop worrying; we, VMExam.com are here to provide you the best experience during your Nutanix Certified Master - Multicloud Infrastructure preparation. Try out our free mock tests to get a glimpse of our quality study materials, and build your confidence with the premium **NCM-MCI practice tests**. Our expert-designed questions help you to improve performance and pass the exam on your first attempt.
