Get an Overview of the 1Z0-076 Certification:

Who should take the [1Z0-076 exam](#)? This is the first question that comes to a candidate's mind when preparing for the Database Data Guard Administration certification. The 1Z0-076 certification is suitable for candidates who are keen to earn knowledge on the Oracle Database 19c and grab their Oracle Certified Professional, Oracle Database 19c - Data Guard Administrator. When it is about starting the preparation, most candidates get confused regarding the study materials and study approach. But 1Z0-076 study guide PDF is here to solve the problem. 1Z0-076 PDF combines some effective sample questions and offers valuable tips to pass the exam with ease.

Why Should You Earn the Oracle 1Z0-076 Certification?

There are several reasons why one should grab the 1Z0-076 certification.

- The Database Data Guard Administration certification proves to be one of the most recognized certifications.
- The certification badge proves the knowledge of the candidate regarding subject matters and makes his resume presentable to potential candidates.
- Thus earning the [Oracle Certified Professional, Oracle Database 19c - Data Guard Administrator](#) is a powerful qualification for a prosperous career.

What Is the Oracle 1Z0-076 Database Data Guard Administration Certification Exam Structure?

| | |
|---------------------|--|
| Exam Name | Oracle Database 19c - Data Guard Administration |
| Exam Code | 1Z0-076 |
| Exam Price | USD \$245 (Pricing may vary by country or by localized currency) |
| Duration | 120 minutes |
| Number of Questions | 74 |
| Passing Score | 61% |

| Sample Questions | Oracle Certified Professional, Oracle Database 19c - Data Guard Administrator (OCP) |
| Recommended Practice | 1Z0-076 Online Practice Exam |

Enhance Knowledge with 1Z0-076 Sample Questions:

Question: 1

Which four database parameters might be affected by or influence the creation of standby databases?

- a) DB_NAME
- b) ARCHIVE_LAG_TARGET
- c) COMPATIBLE
- d) DB_FILE_NAME_CONVERT
- e) DB_UNIQUE_NAME
- f) FAL_SERVER
- g) STANDBY_ARCHIVE_DEST

Answer: a, d, e, f

Question: 2

Which three are benefits of using the Data Guard Broker to manage standby databases?

- a) it simplifies physical standby database creation
- b) It provides an easy failover capability using a single command.
- c) it coordinates database state transitions and updates database properties dynamically.
- d) it automatically changes database properties after the protection mode for a configuration is changed
- e) It provides an easy switchover capability using a single command.
- f) It simplifies logical standby database creation.

Answer: b, c, e

Question: 3

Examine the Data Guard configuration:

DGMGRL> show configuration

Configuration – Animals Protection

Mode: MaxAvailability

Databases: dogs- Primary database

sheep-(*) Physical standby database cats- Physical standby database

Fast-Start Failover: ENABLED

Configuration Status: SUCCESS

What happens if you issue "switchover" to sheep;" at the DGMGRL prompt?

- a) The switchover succeeds but Dogs need to be reinstated
- b) The switchover succeeds but Fast-Start Failover is suspended.
- c) The switchover succeeds and Cats become the new failover target.
- d) The switchover succeeds and Dogs become the new failover target
- e) it results in an error indicating that a switchover is not allowed

Answer: d

Question: 4

Attempting to start the observer raises an error:

DGMGRL> start observer:

DGM-16954: Unable to open and lock the Observer configuration file Failed.

Identify two possible reasons for this error.

- a) Fast-Start Failover is not yet enabled for this Data Guard configuration
- b) The observer configuration file is marked read-only.
- c) There is already an observer running for this Data Guard configuration.
- d) There is another observer running for a Data Guard configuration which uses the same observer configuration file
- e) The broker configuration has not yet been created.

Answer: b, d

Question: 5

Which three statements are true about Global Sequences when connected to a physical standby database with Real-Time Query enabled?

- a) If the CACHE option is set then the size of the cache must be atleast 100
- b) Their creation requires that a LOG_ARCHIVE_DEST_n parameter be defined in the standby that points back to their primary
- c) Their usage will always have a performance impact on the primary database.
- d) Their usage may have a performance impact on the physical standby database if the CACHE size is too small
- e) They must have the NOORDER and CACHE options set.

Answer: b, d, e

Question: 6

A query on the view DBA_LOGSTBY_UNSUPPORTED on your primary database returns no rows As a result of this, you decide that an upgrade may use logical standby databases. Which two are true about upgrading Data Guard environments consisting of one logical standby database running on a separate host from the primary?

- a) The upgrade always requires downtime until the upgrade of the logical standby is completed
- b) Using manual upgrade, catctl.pl can be executed in some cases on the primary and standby database simultaneously.
- c) The upgrade always required downtime until the upgrade of the primary is completed
- d) Using manual upgrade, catupgr.sql needs to run on the primary database only.
- e) SQL Apply on the local standby database must be stopped while the primary database is upgraded.
- f) Fast-Start Failover can be used to protect the primary database during the upgrade.

Answer: b, e

Question: 7

Which two statements are true about Real-Time Query?

- a) Setting STANDBY_MAX_DATA_DELAY =0 requires synchronous redo transport.
- b) Disabling Real-Time Query prevents the automatic start of redo apply when a physical standby database is opened READ ONLY.
- c) Real-Time Query sessions can be connected to a Far Sync instance.
- d) Real-Time Query has no limitations regarding the protection level of the Data Guard environment.
- e) A standby database enabled for Real-Time Query cannot be the Fast-Start Failover target of the Data Guard configuration.

Answer: a, d

Question: 8

You are licensed to use Oracle Active Data Guard. Which two statements are true after enabling block change tracking on a physical standby database?

- a) it allows fast incremental backups to be offloaded to the physical standby database
- b) It starts the CTWR process on the physical standby database instance
- c) it allows fast incremental backups to be taken on the primary database.
- d) It starts the RVWR process on the physical standby database instance.
- e) It allows fast incremental backups to be offloaded to a snapshot standby database, when the physical standby database is converted.
- f) It starts the CTWR process on the primary database instance.

Answer: a, b

Question: 9

You must manually reinstate a database using DGMGRL. To which database should you connect with DGMGRL before issuing the REINSTATE command and in which state should the target database be?

- a) The target database should be in NOMOUNT state and DGMGRL should be connected to any database that is a member of the configuration
- b) The target database should be MOUNTED and DGMGRL should be connected to any database that is a member of the configuration
- c) The target database should be MOUNTED and DGMGRL should be connected to the primary database.
- d) The target database should be MOUNTED and DGMGRL should be connected to the target database
- e) The target database should be in NOMOUNT state and DGMGRL should be connected to the primary database

Answer: c

Question: 10

Which two are prerequisites for creating a standby database using Enterprise Manager cloud control?

- a) The primary database must have FORCE LOGGING enabled.
- b) The primary database must be in archive log mode
- c) A backup of the primary database must exist.
- d) The primary host and the proposed standby database host must run the same operating system.
- e) The primary database instance must be started using an SPFILE.
- f) The primary database must have flashback enabled

Answer: b, e

What Study Guide Works Best in Acing the Oracle 1Z0-076 Database Data Guard Administration Certification?

The 1Z0-076 study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the Database Data Guard Administration exam, getting in full touch of the [syllabus](#) is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

Make Your Schedule:

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

Get Expert Advice from the Training:

Do not forget to join the Oracle 1Z0-076 training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

Get Access to the PDF Sample Questions:

If your study material is in a [PDF format](#) or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

Avoid Dumps and Utilize the Oracle 1Z0-076 Practice Test:

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware

of the exam structure and time management during the exam preparation can perform well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, 1Z0-076 practice tests always stand out to be the better choice than dumps PDF.

Avail the Proven 1Z0-076 Practice Test for Success!!!

Do you want to pass the 1Z0-076 exam on your first attempt? Stop worrying; we, DBExam.com are here to provide you the best experience during your Oracle Database 19c - Data Guard Administration preparation. Try out our free mock tests to get a glimpse of our quality study materials, and build your confidence with the premium [1Z0-076 practice tests](#). Our expert-designed questions help you to improve performance and pass the exam on your first attempt.
