Who should take the **1Z0-1086-23 exam**? This is the first question that comes to a candidate's mind when preparing for the Enterprise Data Management Cloud 2023 Implementation Professional certification. The 1Z0-1086-23 certification is suitable for candidates who are keen to earn knowledge on the Oracle Enterprise Data Management and grab their Oracle Enterprise Data Management Cloud 2023 Certified Implementation Professional. When it is about starting the preparation, most candidates get confused regarding the study materials and study approach. But 1Z0-1086-23 study guide PDF is here to solve the problem. 1Z0-1086-23 PDF combines some effective sample questions and offers valuable tips to pass the exam with ease.

Why Should You Earn the Oracle 1Z0-1086-23 Certification?

There are several reasons why one should grab the 1Z0-1086-23 certification.

- The Enterprise Data Management Cloud 2023 Implementation Professional certification proves to be one of the most recognized certifications.
- The certification badge proves the knowledge of the candidate regarding subject matters and makes his resume presentable to potential candidates.
- Thus earning the **Oracle Enterprise Data Management Cloud 2023 Certified Implementation Professional** is a powerful qualification for a prosperous career.

What Is the Oracle 1Z0-1086-23 Enterprise Data Management Cloud 2023 Implementation Professional Certification Exam Structure?

Exam Name	Oracle Enterprise Data Management Cloud 2023 Implementation Professional
Exam Code	1Z0-1086-23

Exam Price	USD $245 (Pricing may vary by country or by localized currency)
Duration	90 minutes
Number of Questions	60
Passing Score	67%
Format	Multiple Choice Questions (MCQ)
Recommended Training	**Become a Certified Enterprise Data Management Implementer**
Schedule Exam	**Buy Oracle Training and Certification**
Sample Questions	**Oracle Enterprise Data Management Cloud 2023 Certified Implementation Professional**
Recommended Practice	**1Z0-1086-23 Online Practice Exam**

Enhance Knowledge with 1Z0-1086-23 Sample Questions:

Question: 1

A node exists in a hierarchy. Which three types of properties could be present?
(Choose three.)

a) Inherited properties
b) Relationship properties
c) Hierarchy properties
d) Node properties
e) Shared properties

Answer: a, b, d

Question: 2

When registering an application, what is typically required to be configured?

a) Application version control
b) Application deployment schedule
c) Application roles and permissions
d) Application encryption algorithms

Answer: c

Question: 3

You have account dimensions in two different applications that must be kept in sync. Given a business requirement that nodes added to either application must be shared with the other, what should you do?

a) Create one bi-directional node type converter between the two applications.
b) Create two node type converters: one with Application1 accounts as the source and Application2 accounts as the target, and another with Application2 accounts as the source and Application1 accounts as the target.
c) Create one node type converter with Application1 accounts as the source and Application2 accounts as the target, and specify a reverse conversion in requests when sharing in the opposite direction.
d) Create three node type converters: one with Application1 accounts as the source and Application2 accounts as the target, another with Application2 accounts as the source and Application1 accounts as the target, and a third for bi-directional sharing.

Answer: b

Question: 4

The Owner permission for an application lets users perform which three tasks?

(Choose three.)

a) Modify application registration.
b) Assign permissions for an application's data objects to other users and groups.
c) Import viewpoints from external applications.
d) Manage an application's data objects.
e) Delete service administrators from an instance.

Answer: a, b, d

Question: 5

How does an information model represent data relationships?

a) Through tables and columns
b) Through mathematical formulas
c) Through flowcharts and diagrams
d) Through graphs and charts

Answer: c

Question: 6

In your application, you have nodes for cost centers. You want to group them two ways: by department and geography. What are two ways to accomplish this?
(Choose two.)

a) Create two hierarchy sets; one where parent nodes are departments and child nodes are cost centers; and another where parent nodes are geographical regions and child nodes are cost centers.
b) Create a list viewpoint for cost centers, then add parents for departments and geography.
c) Create two node sets; one with a group of departments and another with a group of geographical regions.
d) Create one hierarchy set with different top nodes for departments and geography, and add shared cost center nodes as children.

Answer: a, d

Question: 7

Which statement is true about permissions?

a) The Owner permission on a view enables a user to configure the view and grants full access to the data objects in that view.
b) When you grant a permission at a higher level, such as Owner, it includes all of the permissions at lower levels, such as Participant.
c) Permissions assigned to a dimension do not also apply to the hierarchy sets and node types that they contain.
d) By default, when you assign the Participant permission to a user or group, their data access is set to Write.

Answer: b

Question: 8

How are data import and export typically performed?

a) Storing data in a centralized database accessible to all applications
b) Manually copying and pasting data between systems
c) Sharing data files via email attachments
d) Using data integration tools or ETL (Extract, Transform, Load) processes

Answer: d

Question: 9

Which two objects can you transfer using templates?

(Choose two.)

a) Data
b) Requests
c) Applications
d) Dimensions
e) Transaction history

Answer: a, c

Question: 10

What is an API in the context of sharing data across applications?

a) A set of rules and protocols for communication between applications
b) A database management system used for data storage
c) A data visualization tool
d) A file format for exchanging data between applications

Answer: a

What Study Guide Works Best in Acing the Oracle 1Z0-1086-23 Enterprise Data Management Cloud 2023 Implementation Professional Certification?

The 1Z0-1086-23 study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the Enterprise Data Management Cloud 2023 Implementation Professional exam, getting in full touch of the **syllabus** is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

Make Your Schedule:

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

Get Expert Advice from the Training:

Do not forget to join the Oracle 1Z0-1086-23 training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

Get Access to the PDF Sample Questions:

If your study material is in a **PDF format** or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

Avoid Dumps and Utilize the Oracle 1Z0-1086-23 Practice Test:

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the exam structure and time management during the exam preparation can perform well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, 1Z0-1086-23 practice tests always stand out to be the better choice than dumps PDF.

Avail the Proven 1Z0-1086-23 Practice Test for Success!!!

Do you want to pass the 1Z0-1086-23 exam on your first attempt? Stop worrying; we, DBExam.com are here to provide you the best experience during your Oracle Enterprise Data Management Cloud 2023 Implementation Professional preparation. Try out our free mock tests to get a glimpse of our quality study materials, and build your confidence with the premium **1Z0-1086-23 practice tests**. Our expert-designed questions help you to improve performance and pass the exam on your first attempt.
