Get an Overview of the C1000-068 Certification:

Who should take the **C1000-068 exam**? This is the first question that comes to a candidate's mind when preparing for the Foundations of Blockchain Platform certification. The C1000-068 certification is suitable for candidates who are keen to earn knowledge on the IBM Blockchain - Not Applicable and grab their IBM Certified Solution Advisor - Blockchain Platform V2. When it is about starting the preparation, most candidates get confused regarding the study materials and study approach. But C1000-068 study guide PDF is here to solve the problem. C1000-068 PDF combines some effective sample questions and offers valuable tips to pass the exam with ease.

Why Should You Earn the IBM C1000-068 Certification?

There are several reasons why one should grab the C1000-068 certification.

- The Foundations of Blockchain Platform certification proves to be one of the most recognized certifications.
- The certification badge proves the knowledge of the candidate regarding subject matters and makes his resume presentable to potential candidates.
- Thus earning the **IBM Certified Solution Advisor - Blockchain Platform V2** is a powerful qualification for a prosperous career.

What is the IBM C1000-068 Foundations of Blockchain Platform Certification Exam Structure?

Exam Name	IBM Certified Solution Advisor - Blockchain Platform V2
Exam Code	C1000-068
Exam Price	$200 (USD)
Duration	90 mins
Number of Questions	62
Passing Score	72%
Books / Training	**Getting Started with Enterprise Blockchain - A Guide to Design and Development**
Schedule Exam	**Pearson VUE**
Sample Questions	**IBM Foundations of Blockchain Platform Sample Questions**
Practice Exam	**IBM C1000-068 Certification Practice Exam**

Enhance Knowledge with C1000-068 Sample Questions:

Question: 1

While advising a client whether a use-case is appropriate for IBM Blockchain Platform, what are two good questions to ask?

    a) What assets are involved in the transactions?
    b) Who are the potential organizations in the network?
    c) What are the data validation rules for the fields when inputting data?
    d) What networking protocol will be required between the peers in the network?
    e) What is the expected CPU power of the mobile device the application will run on?

Answer: a, b

Question: 2

When designing a smart contract transaction to process large files, where should the files be stored?

a) Directly inside the world state, similar to other assets.
b) In the submitting client application, with a hash of the file stored in the world state.
c) It should not be stored at all as large files should not be processed by a smart contract.
d) In a separate data store, with a link or a reference to the file stored in the world state along with a hash.

Answer: d

Question: 3

A new organization needs to run a new peer on IBM Blockchain Platform. This peer will connect to an existing ordering service managed by another organization. What must be done before adding the new peer?

a) The new organization configures the new peer to automatically join the ordering service.
b) The new organization adds itself to the existing consortium for the ordering service.
c) The administrator for the ordering service adds the new organization to the consortium.
d) The consortium administrator must create the credentials of the new organization's administrator.

Answer: c

Question: 4

A peer deployed in an IBM Blockchain Platform network requires additional CPU. How can the CPU for the peer be increased?

a) The CPU allocation for the peer will increase automatically as required.
b) The CPU allocation for the peer cannot be changed once the peer has been created.
c) Change the resource allocation for the peer using the IBM Blockchain Platform web console.
d) Change the resource allocation for the peer using a Hyperledger Fabric peer command.

Answer: c

Question: 5

Why was the Hyperledger Fabric project created?

a) to centralize blockchain on cloud for performance
b) to develop blockchain consensus algorithms
c) to fill the gap between databases and Bitcoin
d) to develop blockchains for the enterprise

Answer: d

Question: 6

What are three concepts that apply to an enterprise blockchain?

a) Finality
b) Provenance
c) Immutability
d) Independence
e) Repeatability
f) Artificial Intelligence

Answer: a, b, c

Question: 7

When moving to a new version of a smart contract, what must remain the same throughout the process?

a) the smart contract name
b) the smart contract owner
c) the smart contract endorsement policy
d) the smart contract instantiation policy

Answer: a

Question: 8

Business networks today are often inefficient because each organization keeps its own record of the transactions it makes, which can lead to disputes. What specific technology does blockchain provide to improve the situation?

- a) a web portal
- b) a shared ledger
- c) a batch processor
- d) a central database

Answer: a

Question: 9

What is a characteristic that distinguishes an enterprise blockchain from a public blockchain?

- a) immutability on the ledger
- b) fully decentralized model
- c) the participants can be easily identified
- d) automatic privacy and confidentiality of data

Answer: c

Question: 10

What is the purpose of the Fabric Gateways view in the IBM Blockchain Platform VS Code extension?

- a) creating a blockchain network
- b) discovering a blockchain network
- c) connecting to a blockchain network
- d) joining an organization to a blockchain network

Answer: c

What Study Guide Works Best in acing the IBM C1000-068 Foundations of Blockchain Platform Certification?

The C1000-068 study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the Foundations of Blockchain Platform exam, getting in full touch of the **syllabus** is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

Make Your Schedule:

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

Get Expert Advice from the Training:

Do not forget to join the IBM C1000-068 training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

Get Access to the PDF Sample Questions:

If your study material is in a **PDF format** or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

Avoid Dumps and utilize the IBM C1000-068 Practice Test:

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the exam structure and time management during the exam preparation can perform well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, C1000-068 practice tests always stand out to be the better choice than dumps PDF.

Avail the Proven C1000-068 Practice Test for Success!!!

Do you want to pass the C1000-068 exam on your first attempt? Stop worrying; we, EduSum.com are here to provide you the best experience during your Foundations of IBM Blockchain Platform V2 preparation. Try out our free mock tests to get a glimpse of our quality study materials, and build your confidence with the premium **C1000-068 practice tests**. Our expert-designed questions help you to improve performance and pass the exam on your first attempt.
