## Enhance Knowledge with PSM I Sample Questions:

### Question: 1

You are a new Scrum Master and have been asked to take a lead in the development of a new product. Seven teams new to Scrum will build this product. You have the beginnings of a Product Backlog from gathering requirements.

How would you minimize dependencies between the Scrum Teams?

- You create an independent Product Backlog per Scrum Team
- You identify the dependencies and re-order the Product Backlog for them
- You work with the Developers on how to best analyze and break apart the work
- You divide Product Backlog items among the six Product Owners
- You raise this as an impediment with the Scrum Master

**Answer: c**

### Question: 2

Which three behaviors demonstrate that a team is NOT self-organizing and are NOT following the Scrum Guide?

- Stakeholders attend the Daily Scrum to check progress and work with the Scrum Master to optimize the functional scope for the Sprint.
- The Development Team invites external people to the Sprint Planning to ask them how to turn a Product Backlog item into an Increment via a complete and detailed Sprint Backlog.
- Development Team members collaboratively selecting their own work during the Sprint.
- The Development Team has all the skills needed to create a releasable Increment.
- The Development Team members are working within the boundaries of their functional description and nicely handing off work from analyst to developer to tester to integration.
- The Development Team creates their own sprint backlog, reflecting all work that is part of the definition of "Done".

**Answer: a, b, e**

**Question: 3**

What are two ways a Scrum Master serves to enable effective Scrum Teams?

(choose the best answers)

- a) By keeping high value features high in the Product Backlog.
- b) By removing impediments that hinder the Scrum Team.
- c) By starting and ending the meetings at the proper time.
- d) By facilitating Developer decision-making.

**Answer: b, d**

**Question: 4**

Burn-down charts can be used to visualize progress towards reaching a goal. What do the burn-down charts track?

- a) Individual Development Team members productivity over time
- b) The amount of work remaining across time
- c) Cost across time
- d) The capacity of the Development Team

**Answer: b**

**Question: 5**

An organization has decided to adopt Scrum, but management wants to change the terminology to fit with terminology already used. What will likely happen if this is done?

- a) Without a new vocabulary as a reminder of the change, very little change may actually happen.
- b) The organization may not understand what has changed with Scrum and the benefits of Scrum may be lost.
- c) All of the above.
- d) Management may feel less anxious.

**Answer: c**

**Question: 6**

You have been hired as a Scrum Master of seven new Scrum Teams. These teams will build one product.

Select 2 conditions you should ensure.

- a) There should be six Product Owners, reporting to a chief Product Owner
- b) Each Scrum Team should have a separate Product Backlog
- c) There should be six Product Owners, one for each Scrum Team
- d) The product has one Product Backlog
- e) There should be only one Product Owner

**Answer: d, e**

**Question: 7**

The CEO asks the Developers to add a "very important" item to a Sprint that is in progress. What should the Developers do?

(choose the best two answer)

- a) Add the item to the current Sprint without any adjustments.
- b) Inform the other members of the Scrum Team so the team can decide what to do.
- c) Add the item to the current Sprint and drop an item of equal size.
- d) Add the item to the next Sprint.

**Answer: b**

**Question: 8**

How much work must a Development Team do to a Product Backlog item it selects for a Sprint?

- a) As much as it can fit into the Sprint.
- b) All development work and at least some testing.
- c) Analysis, design, programming, testing and documentation.
- d) As much as it has told the Product Owner will be done for every Product Backlog item it selects in conformance with the definition of "Done".

**Answer: d**

**Question: 9**

What are the two primary ways a Scrum Master keeps a Development Team working at its highest level of productivity?

- a) By keeping high value features high in the Product Backlog
- b) By starting and ending the meetings at the proper time
- c) By facilitating Development Team decisions
- d) By removing impediments that hinder the Development Team

**Answer: c, d**

**Question: 10**

During a Sprint, a Developer determines that the Scrum Team will not be able to complete the items in their forecast.

Who should be present to review and adjust the Product Backlog items selected?

(choose the best two answer)

- a) The Developers.
- b) The Scrum Master, the project manager, and the Developers
- c) The Product Owner and all stakeholders.
- d) The Product Owner and the Developers.

**Answer: d**

# What Study Guide Works Best in Acing the Scrum.org PSM I Professional Scrum Master Certification?

The PSM I study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

## Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the Professional Scrum Master exam, getting in full touch of the [syllabus](#) is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

## Make Your Schedule:

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

## Get Expert Advice from the Training:

Do not forget to join the Scrum.org PSM I training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

## Get Access to the PDF Sample Questions:

If your study material is in a [PDF format](#) or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

## Avoid Dumps and Utilize the Scrum.org PSM I Practice Test:

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the exam structure and time management during the exam preparation can perform well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, PSM I practice tests always stand out to be the better choice than dumps PDF.
