<b>Recommended Practice</b>	<a href="#">VMware Certified Professional - Cloud Management and Automation 2024 (VCP-CMA 2024) Practice Test</a>

## Enhance Knowledge with 2V0-31.23 Sample Questions:

### Question: 1

While creating a vCloud Director endpoint, how must an administrator configure vRealize Automation to manage all vCloud Director organizations with a single endpoint?

- a) Specify the organization in the Organization field and use the system administrator credentials.
- b) Leave the Organization field blank and use the system administrator credentials.
- c) Specify the organization in the Organization field and use the organization administrator credentials.
- d) Leave the Organization field blank and use the organization administrator credentials.

**Answer: b**

### Question: 2

An administrator completes a proof-of-concept with vRealize Automation using a standard deployment to test out its key provisioning use cases. vRealize Suite Lifecycle Manager (vRSLCM) is going to be leveraged to scale out this vRealize Automation deployment to prepare it for production.

What is a pre-requisite step the administrator must complete before using the vRSLCM Scale-Out option for the environment?

IaaS administrator

- a) Delete the existing standard deployment.
- b) Choose "Add Component" from the vRealize Automation environment card.
- c) Review VMware Knowledge Base articles for steps to validate the PostgreSQL cluster health status.
- d) Create or import a product certificate in the locker with all of the existing and new product component host names and the load balancer host name.

**Answer: d**

**Question: 3**

The CTO updates the company's tagging policy to require that all newly deployed machines include a tag with the operating system type deployed (i.e. `ostype:windows` or `ostype:linux`).

Following new guidance, an administrator responsible for creating blueprints in the App-Dev project successfully updates the Multi-Cloud-Windows blueprint to include the `ostype:windows` tag on the Cloud.Machine resource. Following a successful test from the blueprint canvas, the administrator creates a new version of the blueprint and checks the "Release this version to the catalog" checkbox to release it to Service Broker.

Finally, the administrator successfully updates the Service Broker content source so that the other members of the App-Dev project can deploy the latest version of the blueprint. The next day, project members report that there is an option to choose which of two versions (1.0 and 1.1) of the blueprint they wish to deploy.

Which two tasks should the administrator complete to ensure only the latest released version of the catalog item is displayed?

(Choose two.)

- a) Unrelease version 1.1 of the blueprint.
- b) Unrelease version 1.0 of the blueprint.
- c) Update the correct content source.
- d) Restore version 1.0 of the blueprint.
- e) Ensure the blueprint is shared with the App-Dev project.

**Answer: b, c**

**Question: 4**

In preparation for a vRealize Automation distributed deployment, the administrator clones a Windows template to create the required IaaS servers.

During the installation, the vRealize Automation prerequisite checker flags an issue with the Microsoft Distributed Transaction Coordinator (MSDTC).

What are two advantages of using vRealize Automation on-premises over vRealize Automation Cloud?

(Choose two.)

- a) Leverage existing VMware Identity Manager for authentication
- b) Integrate with on-premises vRealize Operations
- c) Support for provisioning workloads to on-premises infrastructure
- d) License key is not required
- e) Support for on-premises vRealize Orchestrator instance(s)

**Answer: a, b**

**Question: 5**

What is the purpose of using a custom form?

- a) To customize Service Broker and enhance the user interface
- b) To customize the Cloud Assembly user interface
- c) To customize the input parameters and enhance a request form
- d) To customize a blueprint to enable guest customization

**Answer: c**

**Question: 6**

What does the `-n` commandlet option represent in the `kubectl -n prelude get pods` command?

- a) Namespace
- b) Nginx
- c) Node
- d) New Deployment

**Answer: a**

**Question: 7**

An administrator creates a new multi-cloud blueprint for the App-Dev team. The initial requirements for the multi-cloud blueprint were:

- All components must connect to a single network.
- The requestor must be able to select the image to be deployed.
- The requestor must be able to select to which cloud to deploy.
- The requestor must be able to select the number of machines to be deployed.

The administrator creates the blueprint and releases version 1.0 to the catalog. The App-Dev team decides to make some changes to the multi-cloud blueprint to include the following additional requirement:

- All machines must be deployed behind a load balancer.

An App-Dev administrator makes the required changes and publishes a new version of the blueprint. Upon receiving reports of issues, the administrator opens the multi-cloud blueprint and finds changes have been made. Testing of the newest version fails.

From within the Cloud Assembly blueprint design canvas, which step should the administrator take first to get the blueprint back to a stable state?

- a) Restore version 1.0 of the blueprint.
- b) Create a new version of the blueprint.
- c) Download the blueprint in YAML.
- d) Clone the blueprint to a new blueprint.

**Answer: a**

**Question: 8**

Users are reporting that a catalog item is no longer available after recent changes. Which of the following would account for this behavior?

- a) An approval policy was assigned to the item.
- b) The storage resources on the reservation were lowered.
- c) New support users were added to the business group.
- d) The blueprint was unpublished.

**Answer: d****Question: 9**

Which command line tool can an administrator use to collect the log bundle for vRealize Automation?

- a) Kubeadm
- b) Vracli
- c) Docker
- d) Helm

**Answer: b****Question: 10**

What is the maximum number of unmanaged machines that can be onboarded hourly using a single vRealize Automation Onboarding Plan?

- a) 1,000
- b) 3,000
- c) 3,500
- d) 17,000

**Answer: c**

## What Study Guide Works Best in Acing the VMware 2V0-31.23 VCP-CMA 2024 Certification?

The 2V0-31.23 study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

### Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the VCP-CMA 2024 exam, getting in full touch of the [syllabus](#) is mandatory. During preparation, you might not like

all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

### **Make Your Schedule:**

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

### **Get Expert Advice from the Training:**

Do not forget to join the VMware 2V0-31.23 training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

### **Get Access to the PDF Sample Questions:**

If your study material is in a [PDF format](#) or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

### **Avoid Dumps and Utilize the VMware 2V0-31.23 Practice Test:**

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the exam structure and time management during the exam preparation can perform well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, 2V0-31.23 practice tests always stand out to be the better choice than dumps PDF.

### **Avail the Proven 2V0-31.23 Practice Test for Success!!!**
