Enhance Knowledge with ATA02 Sample Questions:

Question: 1

Which of the following statements is true, when considering Virtualizing the Blue Prism Database Server?

- a) Virtualization of the database server should only be considered after fully reviewing the specific vendor recommendations for the Hypervisor and SQL server version
- b) The Database server should never be virtualized
- c) Virtualization is only supported on Vmware Hypervisor technology
- d) Virtualization should be considered only in very small environments

Answer: a

Question: 2

What restrictions should be considered if using XenDesktop for delivery of the Runtime Resources?

(Choose two)

- a) Login Agent must be used to initiate the login to the device vs the Citrix Client.
- b) Only version 5 of Blue Prism is supported with XenDesktop.
- c) Login Agent is only supported from version 7.6 of XenDesktop, due to restrictions on 3rd party credential provider support prior to this.
- d) XenDesktop is not a supported platform for the Runtime Resource.
- e) Surface Automation will need to be used for all automations.

Answer: a, c

Question: 3

What should be considered when configuring high availability and disaster recovery scenarios for the Blue Prism Application Servers?

(Choose two)

- a) Blue Prism application natively provides fail over between multiple application servers for a Runtime Resource.
- b) Consider deploying multiple Application Servers for each environment.
- c) Consider the impact of maintenance schedules on the availability of the environment.
- d) Deploy multiple instances of an application server service on a single VM.

Answer: b, c

Question: 4

For Blue Prism in a virtualized environment, which of these factors is most important for performance?

- a) Virtual machine's color depth
- b) Number of installed games
- c) Virtual CPU and memory allocation
- d) Desktop wallpaper settings

Answer: c

Question: 5

In component remote access, which of the following is a primary security consideration?

- a) Ensuring entertaining user interfaces
- b) Screen saver options

Answer: b

Question: 8

Why is it important to control remote console access to the Runtime Resources?

- a) Because runtime resources are used to control the scheduling of processes
- b) Because runtime Resources will always have administrative level access to the Blue Prism database
- c) Because Runtime Resources will always have administrative level access to the Blue Prism control room
- d) Because Runtime Resources will be executing automations, where data may be visible or a transaction could be manually interfered with

Answer: d

Question: 9

When process automations are designed appropriately, which connections between Blue Prism devices can support high-latency?

- a) Interactive Clients to Runtime Resources
- b) Application Server to Runtime Resources
- c) Application Server to Database Server
- d) Application Server to Interactive Client
- e) No components can be supported over a high-latency connection

Answer: a

Question: 10

What is crucial when designing a SS&C Blue Prism architecture in a virtualized environment?

- a) High-resolution graphics
- b) Resource allocation and distribution
- c) External USB support
- d) Background music options

Answer: b

What Study Guide Works Best in Acing the SS&C | Blue Prism ATA02 Technical Architect Certification?

The ATA02 study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the Technical Architect exam, getting in full touch of the [syllabus](#) is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

Make Your Schedule:

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

Get Expert Advice from the Training:

Do not forget to join the SS&C | Blue Prism ATA02 training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

Get Access to the PDF Sample Questions:

If your study material is in a [PDF format](#) or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

Avoid Dumps and Utilize the SS&C | Blue Prism ATA02 Practice Test:

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the exam structure and time management during the exam preparation can perform well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, ATA02 practice tests always stand out to be the better choice than dumps PDF.

Avail the Proven ATA02 Practice Test for Success!!!

Do you want to pass the ATA02 exam on your first attempt? Stop worrying; we, CertFun.com are here to provide you the best experience during your Blue Prism Technical Architect preparation. Try out our free mock tests to get a glimpse of our quality study materials, and build your confidence with the premium [ATA02 practice tests](#). Our expert-designed questions help you to improve performance and pass the exam on your first attempt.
