Who should take the [FCP_GCS_AD-7.6 exam](#)? This is the first question that comes to a candidate's mind when preparing for the Google Cloud Security Administrator certification. The FCP_GCS_AD-7.6 certification is suitable for candidates who are keen to earn knowledge on the Public Cloud Security and grab their Fortinet Certified Professional - Public Cloud Security. When it is about starting the preparation, most candidates get confused regarding the study materials and study approach. But FCP_GCS_AD-7.6 study guide PDF is here to solve the problem. FCP_GCS_AD-7.6 PDF combines some effective sample questions and offers valuable tips to pass the exam with ease.

Why Should You Earn the Fortinet FCP_GCS_AD-7.6 Certification?

There are several reasons why one should grab the FCP_GCS_AD-7.6 certification.

- The Google Cloud Security Administrator certification proves to be one of the most recognized certifications.
- The certification badge proves the knowledge of the candidate regarding subject matters and makes his resume presentable to potential candidates.
- Thus earning the [Fortinet Certified Professional - Public Cloud Security](#) is a powerful qualification for a prosperous career.

What Is the Fortinet FCP_GCS_AD-7.6 Google Cloud Security Administrator Certification Exam Structure?

Exam Name	Fortinet FCP - Google Cloud Security 7.6 Administrator
Exam Number	FCP_GCS_AD-7.6 Google Cloud Security Administrator

Exam Price	\$200 USD
Duration	70 minutes
Number of Questions	35
Passing Score	Pass / Fail
Recommended Training	Google Cloud Security Administrator
Exam Registration	PEARSON VUE
Sample Questions	Fortinet FCP_GCS_AD-7.6 Sample Questions
Practice Exam	Fortinet Certified Professional - Public Cloud Security Practice Test

Enhance Knowledge with FCP_GCS_AD-7.6 Sample Questions:

Question: 1

An administrator wants to deploy a FortiGate VM. One of the requirements is that the new FortiGate VM is completely isolated from other resources belonging to the same Google Cloud account. How can this be accomplished?

- a) Deploy the FortiGate VM in a new project.
- b) Deploy the FortiGate VM in a new VPC.
- c) Deploy the FortiGate VM in a new subnet.
- d) Deploy the FortiGate VM in a new region.

Answer: a

Question: 2

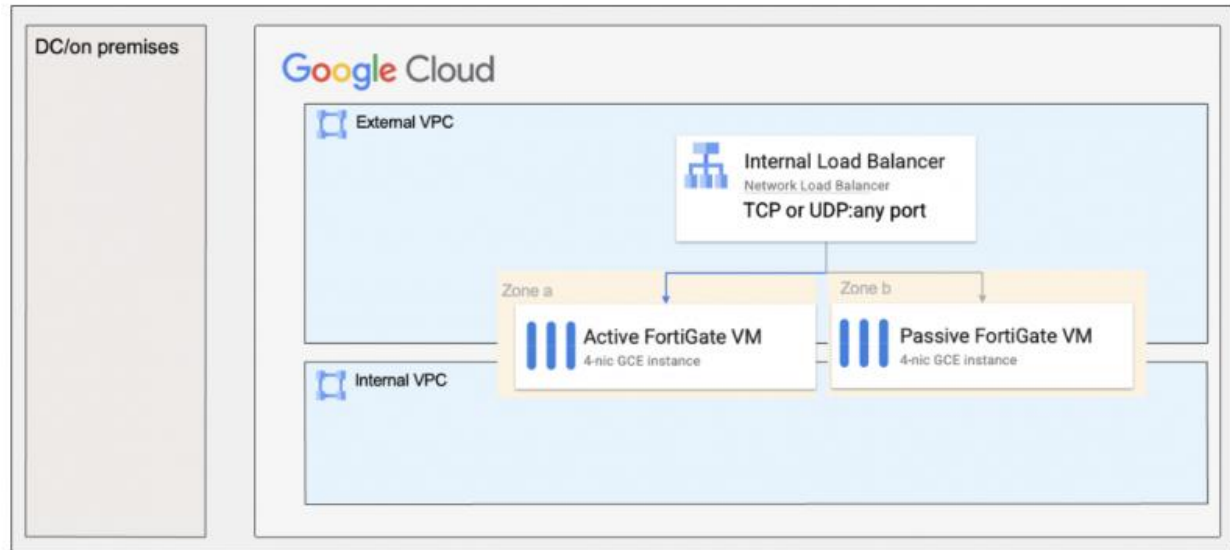

Which two statements about the FortiCloud portal are true? (Choose two.)

- a) You must subscribe to a Fortinet cloud service on Google Cloud Marketplace before you can access the portal on FortiCloud.
- b) You must create appropriate user access for the different FortiCloud service portals.
- c) You must purchase a FortiFlex license and register it on FortiCare before you can access the FortiFlex portal.
- d) You must manually register all Fortinet VMs that you deploy in Google Cloud using pay-as-you-go.

Answer: b, c

Question: 3

Refer to the exhibit.

You have been asked to connect your on-premises data center to the cloud network of your organization. Which Google Cloud-native service should you use to achieve this?

Which Google Cloud-native service should you use to achieve this?

- a) Google Cloud VPC peering
- b) Google Cloud Router
- c) Google Cloud elastic IP addresses
- d) Google Cloud Interconnect

Answer: d

Question: 4

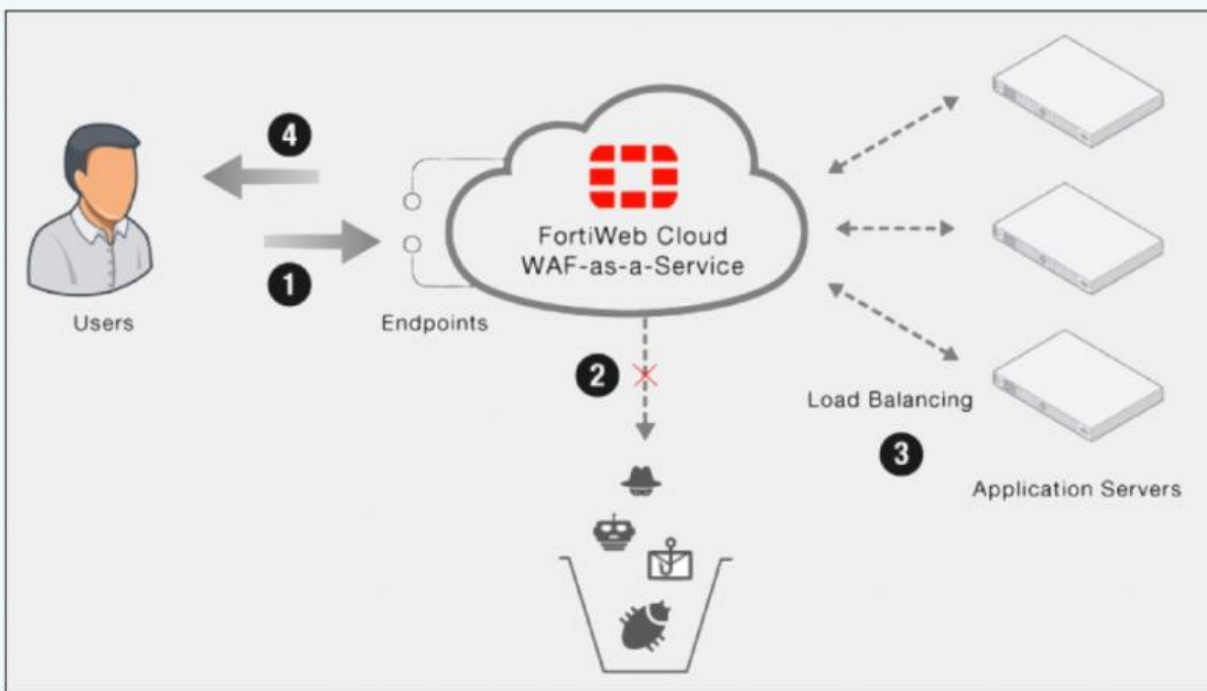

An organization is expecting a significant increase in web traffic to its web servers over the holiday season. Which high-availability (HA) solution would be best suited to ensure cost efficiency?

- a) Active-active HA using auto scaling
- b) Active-passive HA using passthrough load balancers
- c) Active-active HA using FGSP
- d) Active-passive HA using software-defined networking (SDN)

Answer: a

Question: 5

Refer to the exhibit.

Which two conclusions can you draw about traffic flow using FortiWeb Cloud? (Choose two.)

- a) The DNS name for the application servers must point to FortiWeb Cloud.
- b) The application servers must be located in the same VPC in which FortiWeb Cloud is deployed.
- c) FortiWeb Cloud filters the incoming traffic from users, blocking the OWASP Top 10 attacks, zero-day threats, and other application layer attacks.
- d) A Google Cloud storage bucket must be created to archive quarantined files.

Answer: a, c

Question: 6

In which two ways can you integrate Google Cloud run functions with FortiGate? (Choose two.)

- a) Deploying an active-passive HA cluster in Google Cloud Shell
- b) Automatically scaling up or scaling down FortiGate instances based on network load
- c) Dynamically updating firewall objects
- d) Automatically quarantining an identified infected host in the network

Answer: b, d

Question: 7

Refer to the exhibit.

A customer has decided to use the FortiFlex licensing model to deploy a FortiGate VM in Google Cloud. Which two statements about the FortiFlex calculator shown in the image are correct? (Choose two.)

- a) The customer can increase the total points by choosing a higher powered CPU configuration.
- b) The customer can access the FortiFlex calculator only after they purchase a FortiFlex license and register it on FortiCare.
- c) Once deployed, the customer cannot make any changes to the configuration.
- d) The customer is charged based on actual use of resources, regardless of what the FortiFlex calculator displays.

Answer: a, d

Question: 8

In a Google Cloud subnet, what is the first available private IP address that you can assign to a FortiGate interface?

- a) The first host IP address of the subnet.
- b) The second host IP address of the subnet.
- c) The third host IP address of the subnet.
- d) The fourth host IP address of the subnet.

Answer: b

Question: 9

Refer to the exhibit.

```
config system ha
  set group-name "ha"
  set mode a-p
  set hbdev "port5" 50
  set session-pickup enable
  set ha-mgmt-status enable
  config ha-mgmt-interfaces
    edit 1
      set interface "port6"
      set gateway 10.0.20.1
    next
  end
  set override disable
  set priority 10
  set unicast-hb enable
  set unicast-hb-peerip 10.0.20.5
  set unicast-hb-netmask 255.255.255.0
end
```

An administrator has deployed a FortiGate cluster in Google Cloud. Which two things can you conclude about the cluster from the CLI output?

(Choose two.)

- a) This is an active-passive high-availability FortiGate cluster using FGSP.
- b) The FortiGate VM has four attached network interfaces.
- c) The IP address of the host connected to port5 is 10.0.20.5.
- d) The cluster either uses passthrough load balancers or a software-defined network (SDN) connector.

Answer: c, d

Question: 10

An administrator has been tasked with deploying an active-active FortiGate high-availability cluster in Google Cloud. Which two factors must the administrator take into consideration?

(Choose two.)

- a) At least three network interfaces must be attached to the FortiGate VMs.
- b) Passthrough load balancers must be deployed.
- c) SNAT must be enabled on FortiGate.
- d) FortiManager must be deployed to synchronize the full configurations.

Answer: a, b

What Study Guide Works Best in Acing the Fortinet FCP_GCS_AD-7.6 Google Cloud Security Administrator Certification?

The FCP_GCS_AD-7.6 study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the Google Cloud Security Administrator exam, getting in full touch of the [syllabus](#) is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

Make Your Schedule:

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

Get Expert Advice from the Training:

Do not forget to join the Fortinet FCP_GCS_AD-7.6 training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

Get Access to the PDF Sample Questions:

If your study material is in a [PDF format](#) or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

Avoid Dumps and Utilize the Fortinet FCP_GCS_AD-7.6 Practice Test:

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the exam structure and time management during the exam preparation can perform well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, FCP_GCS_AD-7.6 practice tests always stand out to be the better choice than dumps PDF.

Avail the Proven FCP_GCS_AD-7.6 Practice Test for Success!!!

Do you want to pass the FCP_GCS_AD-7.6 exam on your first attempt? Stop worrying; we, NWExam.com are here to provide you the best experience during your Fortinet FCP - Google Cloud Security 7.6 Administrator preparation. Try out our free mock tests to get a glimpse of our quality study materials, and build your confidence with the premium [FCP GCS AD-7.6 practice tests](#). Our expert-designed questions help you to improve performance and pass the exam on your first attempt.
