## Get an Overview of the BLOCKCHAINF Certification:

Who should take the [BLOCKCHAINF exam](#)? This is the first question that comes to a candidate's mind when preparing for the Blockchain Foundation certification. The BLOCKCHAINF certification is suitable for candidates who are keen to earn knowledge on the Technologies and Software and grab their EXIN Blockchain Foundation. When it is about starting the preparation, most candidates get confused regarding the study materials and study approach. But BLOCKCHAINF study guide PDF is here to solve the problem. BLOCKCHAINF PDF combines some effective sample questions and offers valuable tips to pass the exam with ease.

## Why Should You Earn the EXIN BLOCKCHAINF Certification?

There are several reasons why one should grab the BLOCKCHAINF certification.

- The Blockchain Foundation certification proves to be one of the most recognized certifications.
- The certification badge proves the knowledge of the candidate regarding subject matters and makes his resume presentable to potential candidates.
- Thus earning the [EXIN Blockchain Foundation](#) is a powerful qualification for a prosperous career.

## What Is the EXIN BLOCKCHAINF Blockchain Foundation Certification Exam Structure?

Exam Name	EXIN Blockchain Foundation
Exam Code	BLOCKCHAINF
Exam Price	\$268 (USD)
Duration	60 mins
Number of Questions	40
Passing Score	65%
Schedule Exam	<a href="#">EXIN</a>
Sample Questions	<a href="#">EXIN BLOCKCHAINF Sample Questions</a>
Practice Exam	<a href="#">EXIN BLOCKCHAINF Certification Practice Exam</a>

# Enhance Knowledge with BLOCKCHAINF

## Sample Questions:

### Question: 1

**What is an advantage of using the consensus algorithm Proof of Elapsed Time (PoET) instead of Proof of Work (PoW)?**

- a) PoET is usually faster than PoW, because fewer nodes compete for validation than in PoW, since PoET randomly selects the nodes.
- b) PoET has generally lower transaction costs than PoW, because the hardware needed is more generic than the hardware needed for PoW.
- c) PoET is much more secure than PoW, because PoET supports the trusted execution environment (TEE) by time-stamping the transactions.
- d) PoET can often be used in a permissionless blockchain more easily than PoW, because PoET's lottery system for node selection is secure.

**Answer: a**

### Question: 2

**One of the greatest threats to the blockchain community is the narcissism of small differences. What is the result of this narcissism of small differences?**

- a) One community group makes fun of another community group over small differences, resulting in greater collaboration.
- b) The community cares about and works to resolve small differences that cannot be perceived by outside groups.
- c) The community has developed many similar projects and these fight with one another over small differences.
- d) The community has grown closer and works together in a collaborative fashion to solve common problems.

**Answer: c**

**Question: 3**

**Why is blockchain described as the technology that adds a layer of trust to the internet?**

- a) It allows individuals and groups to work together without having to trust each other or establish authority.
- b) It creates a dedicated virtual private network (VPN) tunnel between two or more parties to carry out online fund transfers.
- c) It provides mechanism for the government to create their own digital fiat currency as a replacement of physical currency.
- d) It provides multifactor authentication to create and update records of cryptocurrency transactions securely.

**Answer: a**

**Question: 4**

**Blockchain technology has made decentralized marketplaces possible. What is a benefit of a decentralized marketplace?**

- a) It is based on open-source technology, so it can be used without any investment.
- b) It is not under a paid license to operate and therefore it is managed better.
- c) It is relatively cheap due to the use of cryptocurrency and is very accessible.
- d) It is tamper-proof, resilient to being shut down and trustworthy due to smart contracts.

**Answer: d**

**Question: 5**

**Public blockchains give an incentive to encourage users to mine blocks and secure the network. What incentive is this?**

- a) Public blockchains allow users to create tokens to sell on secondary markets.
- b) Public blockchains do not offer rewards, because they are open source.
- c) Public blockchains offer rewards for mining in the form of cryptocurrency.
- d) Public blockchains offer cash rewards for running mining nodes.

**Answer: c**

**Question: 6**

**How does blockchain technology help to protect intellectual property rights (IP)?**

- a) It allows a user to include IP transactions in smart contracts.
- b) It allows a user to record an event and establish the timeline.
- c) It allows a user to record the creation of software packages.
- d) It allows a user to send a transaction and receive IP ownership.

**Answer: b**

**Question: 7**

**The Monetary Authority of Singapore (MAS) and blockchain company R3 partnered together. What did they achieve together?**

- a) The creation of smart contracts and stable coins
- b) The facilitation of interbank transmission of messages
- c) The first interbank payments without limitations of time zones
- d) The launch of wire transfers using cryptography

**Answer: c**

**Question: 8**

**A competitive consensus algorithm that was developed because blockchains had difficulty meeting the transaction speed demands. Which consensus algorithm is this?**

- a) Proof of Stake (PoS)
- b) Proof of Burn
- c) Delegated Proof of Stake (DPoS)
- d) Proof of Work (PoW)

**Answer: a**

**Question: 9**

**A bearer instrument used to transfer value between two parties over a blockchain network. What is this instrument?**

- a) A DApp
- b) A token
- c) A node
- d) A hash

**Answer: b**

**Question: 10**

**What is an example of the use of cryptography in a blockchain?**

- a) Accessing private or hybrid blockchains by using a private key
- b) Creating cryptocurrency as a reward for mining nodes
- c) Keeping blockchains secure from 51% attacks by corrupt nodes
- d) Securing transfers of cryptocurrency between recipients

**Answer: d**

# What Study Guide Works Best in Acing the EXIN BLOCKCHAINF Blockchain Foundation Certification?

The BLOCKCHAINF study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

## Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the Blockchain Foundation exam, getting in full touch of the [syllabus](#) is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

## Make Your Schedule:

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

## Get Expert Advice from the Training:

Do not forget to join the EXIN BLOCKCHAINF training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

## Get Access to the PDF Sample Questions:

If your study material is in a [PDF format](#) or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

## **Avoid Dumps and Utilize the EXIN BLOCKCHAINF Practice Test:**

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the exam structure and time management during the exam preparation can perform well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, BLOCKCHAINF practice tests always stand out to be the better choice than dumps PDF.

### **Avail the Proven BLOCKCHAINF Practice Test for Success!!!**

Do you want to pass the BLOCKCHAINF exam on your first attempt? Stop worrying; we, CertFun.com are here to provide you the best experience during your EXIN Blockchain Foundation preparation. Try out our free mock tests to get a glimpse of our quality study materials, and build your confidence with the premium [BLOCKCHAINF practice tests](#). Our expert-designed questions help you to improve performance and pass the exam on your first attempt.
