Enhance Knowledge with AD0-E906 Sample Questions:

Question: 1

Before installing the connector, the consultant is reviewing the paths that currently exist in the Experience Manager repository. The following paths are in use:

/apps/dam/gui/coral/components/admin/schemaforms/formbuilder

/apps/dam/gui/compe/components/admin/schemaforms/formbuilder

What action is required before the consultant can proceed with the installation of the enhanced connector?

- a) Delete /apps/dam/gui/coral/components/admin/schemaforms/formbuilder
- b) Delete /apps/dam/gui/compe/components/admin/schemaforms/formbuilder
- c) The consultant can proceed with the installation
- d) Modify both paths to avoid conflicts

Answer: a

Question: 2

A developer implements a custom workflow process that only takes effect if the payload of the workflow instance is an asset. Which two validation steps should the developer take to verify the payload is an Asset?

(Choose two.)

- a) Verify the payload type of the workflow instance is "DAM_ASSET"
- b) Verify the resource type of the payload resource is "dam:Asset"
- c) Verify the payload resource can be adapted to "com.adobe.granite.asset.api.Asset"
- d) Verify the payload resource has a child resource at the path "/jcr:content/asset"

Answer: b, c

Question: 3

An AEM Developer sets an argument variable "myVariable" to be used by the workflow process in the same workflow model definition. Which approach should be used?

- a) //Get myVariable from args
1. String args = metaDataMap.get("PROCESS_ARGS", String.class);
- b) //Get myVariable directly from MetaDataMap
2. String myVariable = workItem.getMetaDataMap().get("myVariable");
- c) //Get myVariable from WorkflowData
3. String myVariable = workItem.getWorkflowData().getPayload().toString();
- d) Access the variable directly from the workflow model configuration dialog.

Answer: a

Question: 4

The consultant is configuring the Enhanced Connector and, as part of this, dependencies need to be added to the pom.xml. The Enhanced Connector is being installed in an Experience Manager Cloud Service environment. Where do dependencies need to be added to facilitate this?

- a) To all module pom.xml only
- b) To parent pom.xml and all module pom.xml
- c) To parent pom.xml only
- d) To the root directory without updating pom.xml files

Answer: b

Question: 5

The consultant reaches the point of configuration of the connector and needs to make sure the firewall will allow event subscription traffic. As part of this, the Adobe Workfront cluster must be identified. Where can this information be found in Workfront?

- a) Setup > System > Logs
- b) Setup > System > Preferences
- c) Setup > System > Diagnostics
- d) Setup > System > Customer Info

Answer: d

Question: 6

A creative team needs to produce content and images for multiple campaign assets. The creative team uses one Project to manage the work effort that contains multiple assets for the campaign.

However, there are different timelines and subtasks for each asset because there may be content that needs to be written or creative images produced or both. The campaign manager needs the ability to track the overall timeline for each asset.

What requires the least number of milestones?

- a) Set up a Milestone Path, attach the Milestone Path to the Project, select a Milestone to attach to the name of the asset Task in the Project, then create a Project Report or View and share it with the campaign manager.
- b) Attach a Milestone Path on the Parent Task of each asset in the Project, then create a Milestone Report.
- c) Set up a Milestone Path and attach it to the Project, attach a Milestone to the Parent Task for each asset in the Project, then create a Project Report or View and share it with the campaign manager.
- d) Attach a milestone to every subtask for each asset in the Project to track timelines.

Answer: c

Question: 7

During a project, the asset synchronization between AEM and Workfront fails intermittently. What should be checked to resolve this issue? (Choose two)

- a) Metadata schema settings
- b) Proofing Viewer settings
- c) AEM server logs
- d) API key validity

Answer: c, d

Question: 8

Which tools in Workfront help stakeholders stay informed? (Choose two)

- a) Custom Reports
- b) Automated Proofing Workflows
- c) Automated Metadata Reports
- d) Dashboards

Answer: a, d

Question: 9

As part of the setup of the Enhanced Connector, the consultant needs to create a system user configuration. wf-workfront-users has been created in the Experience Manager User Group but permissions must be assigned to /content/dam

What is the correct permission that must be assigned?

- a) jcr:read
- b) jcr:modify
- c) jcr:write
- d) jcr:all

Answer: d

Question: 10

What are the benefits of passing values to custom forms in Workfront? (Choose three)

- a) Increased accuracy
- b) Reduced manual input
- c) Automated calculations
- d) Enhanced report generation
- e) Multi-language support
- f) Real-time notifications

Answer: a, b, d

What Study Guide Works Best in acing the Adobe AD0-E906 Workfront for Experience Manager Enhanced Connector Expert Certification?

The AD0-E906 study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the Workfront for Experience Manager Enhanced Connector Expert exam, getting in full touch of the [syllabus](#) is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

Make Your Schedule:

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

Get Expert Advice from the Training:

Do not forget to join the Adobe AD0-E906 training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

Get Access to the PDF Sample Questions:

If your study material is in a [PDF format](#) or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

Avoid Dumps and utilize the Adobe AD0-E906 Practice Test:

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the exam structure and time management during the exam preparation can perform well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, AD0-E906 practice tests always stand out to be the better choice than dumps PDF.

Avail the Proven AD0-E906 Practice Test for Success!!!
