During an initial installation, which configuration must be applied to allow for the modeling of infrastructure devices?

- a) set allowaccess dns
- b) set allowaccess snmp
- c) set allowaccess radius-auth
- d) set allowaccess dhcp

Answer: b**Question: 4**

A network administrator wants to use network access policies to define access for different types of hosts. Which group must be populated with all the possible points of connection?

- a) Forced Registration
- b) Role-Based access
- c) Authorized access points
- d) Forced Remediation

Answer: b**Question: 5**

Two FortiNAC-F devices have been configured in a 1+1 active-passive HA configuration. Which condition would cause the primary FortiNAC-F to shut down the NAC process and change the management status to down?

- a) The primary misses five heartbeats and fails to ping the gateway.
- b) The secondary takes control of the primary.
- c) An administrator changes the status of the secondary to Running – In Control.
- d) The primary fails to poll the secondary while the gateway responds successfully.

Answer: a**Question: 6**

How are logical networks assigned to endpoints?

- a) Through device profiling rules
- b) Through FortiGate IPv4 policies
- c) Through model configuration settings
- d) Through network access policies

Answer: d

Question: 7

Refer to the exhibit.

Edit Action

Name	Disable Host Action						
Stop on Activity Failure	<input checked="" type="checkbox"/>						
Delay Secondary Task(s)	<input type="checkbox"/>						
Activities <div style="display: flex; justify-content: space-between; align-items: center;"> + Create New Edit Delete </div> <div style="display: flex; justify-content: space-between; align-items: center; margin-top: 10px;"> Search </div> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: center; padding: 5px;">Rank</th> <th style="text-align: center; padding: 5px;">Activity</th> </tr> </thead> <tbody> <tr> <td style="text-align: center; padding: 5px;">1</td> <td style="text-align: center; padding: 5px;">Disable Host - Secondary Task: Enable Host</td> </tr> <tr> <td style="text-align: center; padding: 5px;">2</td> <td style="text-align: center; padding: 5px;">Mark Host at Risk for "Guest No Access"</td> </tr> </tbody> </table>		Rank	Activity	1	Disable Host - Secondary Task: Enable Host	2	Mark Host at Risk for "Guest No Access"
Rank	Activity						
1	Disable Host - Secondary Task: Enable Host						
2	Mark Host at Risk for "Guest No Access"						

An administrator adds an action to a security rule. What happens to the host that triggers the security rule?

- a) The host is marked at risk.
- b) The host is disabled but is not marked at risk until an administrator manually executes the secondary task.
- c) The host is disabled, but no further action is taken.
- d) The host is disabled and then marked at-risk.

Answer: d

Question: 8

Refer to the exhibit.

Device Profiling Rules - Total: 17						
Rank	↑ ↓	Set Rank	Enable: <input checked="" type="checkbox"/> <input type="checkbox"/>	Rogue Evaluation Queue Size: 0	Detail	Flush
Enabled	Rank	Name	Type	Registration	Methods	Register as Device
<input checked="" type="checkbox"/>	1	Printer (DHCP)	 Printer	Manual	DHCP	Host View
<input checked="" type="checkbox"/>	2	APC - UPS	 UPS	Automatic	Active, HTTP, Vendor OUI	Host View
<input checked="" type="checkbox"/>	3	Medical Device	 Health Care Device	Automatic	Vendor OUI	Host View
<input checked="" type="checkbox"/>	4	FortiCamera (ONVIF)	 Camera	Automatic	ONVIF	Host View
<input checked="" type="checkbox"/>	5	Printer (TCP:80,515,9100)	 Printer	Manual	TCP	Host View
<input type="checkbox"/>	6	Android (DHCP)	 Android	Automatic	DHCP	Host View

If a device connects to the network for the first time, and FortiNAC-F does not receive a DHCP fingerprint, what would be the next step in the device profiling process?

- a) The device would be modeled as a generic device.
- b) After 5 minutes, the device would be evaluated against the next rule.
- c) The FortiNAC-F would attempt to get a session fingerprint from a modeled firewall.
- d) The device would be added to the database as a rogue.

Answer: d

Question: 9

A user had full corporate network and internet access for most of the day but has now been isolated and is redirected to a quarantine/remediation webpage. What would cause this behavior?

- a) The logged on user is not found in the active directory.
- b) The host has been marked as failed for an admin scan.
- c) The host has been administratively disabled.
- d) The host was removed from the Registered Hosts group.

Answer: b

Question: 10

When performing a wireless integration, what must be configured for FortiNAC-F to provide the MAC address information of a connecting device?

- a) MAC notification traps
- b) Link traps
- c) RADIUS
- d) Syslog messaging

Answer: c

What Study Guide Works Best in Acing the Fortinet NSE5_FNC_AD_7.6 FortiNAC Administrator Certification?

The NSE5_FNC_AD_7.6 study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the FortiNAC Administrator exam, getting in full touch of the [syllabus](#) is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections the more is the chance to attempt maximum number of questions during the actual exam.

Make Your Schedule:

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

Get Expert Advice from the Training:

Do not forget to join the Fortinet NSE5_FNC_AD_7.6 training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

Get Access to the PDF Sample Questions:

If your study material is in a [PDF format](#) or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

Avoid Dumps and Utilize the Fortinet NSE5_FNC_AD_7.6 Practice Test:

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the

exam structure and time management during the exam preparation can perform well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, NSE5_FNC_AD_7.6 practice tests always stand out to be the better choice than dumps PDF.

Avail the Proven NSE5_FNC_AD_7.6 Practice Test for Success!!!
