Enhance Knowledge with HCL-BF-PRO-10 Sample Questions:

Question: 1

A BigFix Administrator is planning to increase the size of the download cache on a Relay to 10 GB. Which of the following methods will accomplish this?

a) Take action on Fixlet: BES Relay Setting: Cache Size and specify the value of 10240.

b) Take action on Task: BES Relay / BES Server Setting: Download Cache Size and specify the value of 10.

c) Edit the client setting _BESGather_Download_CacheLimitMB and set the value to 10240.

d) Edit the client setting _BESGather_Download_CacheLimitMB and set the value to 10.

Answer: a

Question: 2

The network team does not allow UDP to be used on a segment of the network that hosts servers that are used to process credit card payments. Actions that target those servers stay in Not Reported status for a long time and can take up to a day to receive them.

Which of the following client settings when set with the appropriate values can be used to resolve this issue? (Choose two.)

a) BESClient_Comm_CommandPollEnable

b) BESClient_Comm_CommandPollInterval

c) BESClient_CommandPoll

d) BESClient_Comm_CommandPollIntervalSeconds

e) BESClient_CommandPollEnable

Answer: a, d

Question: 3

Several BigFix clients are having an issue with receiving new actions. These clients sometimes show as active in the Console appearing in black with a recent Last Report time. After 45 minutes these same clients appear offline. Sending a Force Refresh causes them to appear active again, but after another 45 minutes, they show as inactive once more.

What Task can be run to collect information about the Client Evaluation Cycle to help determine what might be causing this issue?

a) 353 TROUBLESHOOTING: Run BES Client Diagnostics

b) 1102 TROUBLESHOOTINGRun BigFix Server Diagnostic

c) 545 TROUBLESHOOTING: Upload BES Relay Logs

d) 361 TROUBLESHOOTING: Enable BES Client Usage Profiler

Answer: d

Question: 4

In a large enterprise deployment, why are multiple relays typically placed closer to endpoint groups?

a) To reduce console startup time

b) To centralize logging

c) To minimize WAN bandwidth consumption

d) To improve WebUI authentication

Answer: c

Question: 5

During a BigFix Server installation, which file is essential for enabling secure client-server communication?

a) masthead.afxm

b) license.pvk

c) actionsite.afxm

d) besclient.config

Answer: b

Question: 6

What happens if the BigFix Server cannot communicate with the database?

a) Only reporting fails

b) Clients stop evaluating relevance

c) Relays continue independently

d) The platform becomes non-operational

Answer: d

Question: 7

On a Windows Root Server, which service is responsible for inserting client report data into the database?

a) BES ServerDB Plugin Service

b) BES FillDB

c) BES Root Server

d) BES GatherDB

Answer: b

Question: 8

How can you create a schedule to delete duplicate computer records from the BigFix database?

a) Using the BigFix Administration Tool

b) Using the BigFix Console

c) Using the BigFix WebUI

d) Using the BES Remove Utility

Answer: a

Question: 9

Why might an operator create a Manual Computer Group instead of an Automatic Computer Group?

a) Manual groups put less load on the client computers because they do not need to perform any evaluation or action.

b) Members of the group will change frequently.

c) You need to base the group membership on available information about the client computers that is not available using Relevance expressions.

d) You need to base the group membership on multiple parameters like subnet, computer name and operating system version.

Answer: c

Question: 10

Which BigFix component installation is required to allow browser-based management without installing the native console?

a) WebReports

b) WebUI

c) BigFix Relay

d) BigFix Client

Answer: b

What Study Guide Works Best in Acing the HCLSoftware HCL-BF-PRO-10 HCL BigFix Platform 10 Professional Certification?

The HCL-BF-PRO-10 study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the HCL BigFix Platform 10 Professional exam, getting in full touch of the **syllabus** is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

Make Your Schedule:

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

Get Expert Advice from the Training:

Do not forget to join the HCLSoftware HCL-BF-PRO-10 training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

Get Access to the PDF Sample Questions:

If your study material is in a **PDF format** or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

Avoid Dumps and Utilize the HCLSoftware HCL-BF-PRO-10 Practice Test:

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the exam structure and time management during the exam preparation can perform well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, HCL-BF-PRO-10 practice tests always stand out to be the better choice than dumps PDF.
