## Enhance Knowledge with F5CAB1 Sample Questions:

### Question: 1

In TMUI resource provisioning, which allocation choices are presented for licensed modules in the documented workflow?

Select the best answer.

- a) Disabled or Enabled
- b) Small or Large
- c) Minimum or Nominal
- d) Trial or Permanent

Answer: c

### Question: 2

A BIG-IP administrator can browse to TMUI locally but cannot manage the device from a workstation on another subnet after assigning a static management IP. Which follow-up check is most appropriate first?

Select the best answer

- a) Verify whether a default route was configured for the management port
- b) Verify whether the self IP is floating
- c) Verify whether the default pool is available
- d) Verify whether CMP is enabled

Answer: a

**Question: 3**

Which command family is most directly associated with viewing configured software volumes and rebooting to a specific volume from the CLI?

Select the best answer.

- a) sys software volume
- b) net self volume
- c) cm device volume
- d) sys license volume

Answer: a

**Question: 4**

A list sys provision output shows sys provision ltm { level nominal } and sys provision afm { }. What is the correct interpretation?

Select the best answer.

- a) LTM and AFM are both provisioned at nominal
- b) LTM is provisioned at nominal, and AFM is not provisioned
- c) AFM is licensed permanently, and LTM is unlicensed
- d) Both modules are disabled until the next reboot

Answer: b

**Question: 5**

An administrator is reviewing SSH restrictions for the BIG-IP management interface. Which setting directly controls whether SSH is open to all sources or only a defined range?

Select the best answer.

- a) Port Lockdown
- b) Source Address Translation
- c) Route Advertisement
- d) SSH IP Allow

Answer: d

**Question: 6**

You want to evaluate a new self IP firewall policy without affecting production traffic. Which action should you take?

Select the best answer.

- a) Disable the policy entirely
- b) Apply the policy globally
- c) Stage the policy on the self IP
- d) Set the policy order to last

Answer: c

**Question: 7**

After a software image has been installed successfully, where in TMUI would an administrator activate the newly installed boot location?

Select the best answer.

- a) System > Archives
- b) System > Resource Provisioning
- c) System > Software Management > Boot Locations
- d) System > Platform

Answer: c

**Question: 8**

You need to allow SSH management access only from a jump subnet and deny all other SSH sources. Which control most directly addresses that requirement?

Select the best answer.

- a) Configure SSH IP Allow to Specify Range
- b) Set Port Lockdown to Allow All
- c) Disable the admin account
- d) Move the self IP to traffic-group-local-only

Answer: a

**Question: 9**

Why does BIG-IP software management allow installation to a different volume while the current one remains active?

Select the best answer.

- a) To eliminate the need for a reboot permanently
- b) To test and stage a new image during a maintenance process while the current installation continues running
- c) To avoid licensing checks during upgrades
- d) To force all traffic groups into active-active mode

Answer: b

**Question: 10**

An administrator wants to verify module licensing in TMUI and then verify provisioning from the CLI. Which sequence is the best match?

Select the best answer.

- a) System > License, then list sys provision
- b) System > Platform, then show sys software
- c) System > Archives, then show net self
- d) Device Management > Devices, then list sys db

Answer: a

## **What Study Guide Works Best in Acing the F5 F5CAB1 BIG-IP Administration Install, Initial Configuration, and Upgrade Certification?**

The F5CAB1 study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

## **Explore the Syllabus Topics and Learn from the Core:**

If you are determined to earn success in the BIG-IP Administration Install, Initial Configuration, and Upgrade exam, getting in full touch of the [syllabus](#) is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

## **Make Your Schedule:**

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

## **Get Expert Advice from the Training:**

Do not forget to join the F5 F5CAB1 training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

## **Get Access to the PDF Sample Questions:**

If your study material is in a [PDF format](#) or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

## **Avoid Dumps and Utilize the F5 F5CAB1 Practice Test:**

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the exam structure and time management during the exam preparation can perform well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, F5CAB1 practice tests always stand out to be the better choice than dumps PDF.

## Avail the Proven F5CAB1 Practice Test for Success!!!
